SUMMARY OF OBJECTIVES AND TARGETS 2013

ENPOT / 01

OBJECTIVE : Reduce Water Use for 2013 from 1.5 in 2012
TARGET : YTD reduction in Water Consumption per 1000 lts of vat liquid to < 1.2

explain in more detail what means

Result - The target of <1.2 was achieved with a final figure of 1.18

ENPOT / 02 -

OBJECTIVE : Achieve reduction in product loss to drain
TARGET : Reduce loading to effluent from product loss and waste by end of 2013

Result - Loading onto effluent reduced to an average of 2434 kg for 2013 this is a reduction from 2615 kg for 2012

ENPOT / 03 -

OBJECTIVE : Effective use of Electricity Monitoring
TARGET : Implement monitoring by department and department understanding of usage

Result - All electric usage collected and collated on daily and weekly graphs showing department usage and any spikes in usage being investigated

OBJECTIVES AND TARGETS FOR 2014

ENPOT / 01 Reduce water use and offsite effluent disposal to <1.19m3 per 1000lts of vat liquid

ENPOT / 02 - Divert evaporator condensate and R.O. permeate from effluent flow

to go to process at what date? Need date for this, not just to river indefinitely

ENPOT / 03 - Reduce electric usage to < 54KWh / 1000 lts of vat liquid
