Permit BV8024IW

SUMMARY OF OBJECTIVES AND TARGETS 2012

ENPOT /01 – Water Use YTD reduction in Water Consumption per 1000 lts of vat liquid to < 1.3

Result: The total usage for 2012 was 1.5, main factors was lower production at beginning of year, this ENPOT carried over to 2013

ENPOT / 02 – Achieve ISO 18001 and link with 14001

Result - Due to risk assessments not being completed this is deferred to late 2013

ENPOT / 03 – Effluent loading to be reduced to <3900 mg/l per day by end of 2012

Result – Due to condensate water being diverted from effluent meant the concentration factor increased, this is now approx. 4500mg/l per day new target for 2013
