Dear John,

**Environmental Permitting Regulations (England and Wales) 2010
Re: Permit Number VP3030BX, Temporary Storage of Salt Slags in Final
Storage Shed.**

I write in reference to your email dated 14 September 2015 detailing Befesa's proposal to store salt slag material in the final storage shed (HH Wardle Shed) for a temporary period.

Natural Resources Wales (NRW) agree to the storage of 3000 tonnes of salt slag material in the final storage shed for a period of up to 6 months starting as of the date of this letter.

The salt slag shall remain fully segregated from Befesa Fine Aggregate and any other material stored in the shed and transportation of material shall be in fully covered vehicles at all times.

Any extension to the 6 month period will require further approval from NRW.

Yours sincerely

Matthew Kelk
Regulatory Officer, Industry Regulation Team
