### **Introductory note**

**This introductory note does not form a part of the permit.**

The following notice gives notice of the variation and consolidation of an environmental permit.

This Natural Resources Wales initiated variation was undertaken to correct a number of administrative errors in the permit including the addition of conditions relating to the submission of waste returns and the addition of listed activities which have always been undertaken on site but had been omitted in error from the previously issued permit.

All of the conditions have been varied and consolidated to that of the modern permit template and the consolidated permit as attached to this variation notice.

The operator will be billed for a minor technical variation to recover the cost of under taking this Natural Resources Wales initiated variation.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
