

ACCIDENT MANAGEMENT PLAN REVIEW REPORT – REHAU LTD , AMLWCH PPC PERMIT BX6421IY

Accident Management Plan:

The Operator shall review the formal accident management plan every two years and amend as necessary.

Response:-

- We reviewed and updated the Accident Management Plan to version 6 during February 2015.
- Factory Procedure - Emergency Action Procedure SES-503-Wam was reviewed during February 2015
- The existing Major Site Incident Plan which is referred to from within the Emergency Action Procedure SES-503-Wam was updated during August 2015.

A copy of the reviewed Accident Management Plan is attached..

Conclusion

The updated Accident Management Plan, Major Site Incident Plan and Factory Procedure - Emergency Action Procedures ensure compliance with Section 2.8.1 Environment Agency Guidance Note
