

**SUBSTITUTION OF LEAD STABILISER REPORT 2013 – REHAU LTD,
AMLWCH PPC PERMIT BX6421IY**

Response:-

We have reduced our lead stabiliser usage to 0.014t/t uPVC Product, which is equivalent to 21346kgs per annum.

Corrective Action :-

- a) We have converted the majority of our lead based articles to calcium zinc stabiliser and are planning to change the remaining articles by the end of 2014.
