Schedule

1. The environmental risk assessment that you've included in your application ('Befesa Environmental Risk Assessment H1_Oct 12 (002).pdf') does not contain sufficient quantitative information to assess the risks arising from the Whitchurch Salt Slags site's overall emissions. Without further detail, an evidence based assessment of the emission impact on local sensitive receptors cannot be performed.
Please submit a risk assessment which considers the impact of process contributions of your emissions on sensitive receptors.
