Dear Steven

**Re. Ffridd Rasmus Landfill (Area 3) Cell 4 Capping CQA Validation Report**

We have reviewed the CQA report submitted by Amec on your behalf for the installation of the capping system for Cell 4, an area of approximately 1.5 hectares.

Construction works were undertaken in 2014 and followed the specification and procedures previously submitted to Natural Resources Wales.

The records reveal that the works have been carried out in accordance with the approved plans and that validation testing has been carried out at the agreed frequencies.

The test results included with the validation report show that the materials have met the requirements of the Specification and therefore we are satisfied that the verification statements are correct and that the report can be accepted.

Yours sincerely,

Stuart Ross  
Regulatory Officer 1 (PPC/RSR)
