Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

Ffridd Rasus landfill site ceased accepting waste for disposal on 6th January 2014. Capping was completed on 2nd April 2014. A consolidated permit has been drafted to remove waste acceptance conditions and limits and conditions have been included which reflect that the landfill site will now be operated and maintained in accordance with the agreed closure plan during the aftercare phase.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
