

Application for an environmental permit:

Part B6.5 – Discharging treated domestic sewage effluent of up to 15 cubic metres (15m³) a day into ground or up to 20 cubic metres (20m³) a day to surface water

You should only use this form if your intended activity is limited to discharging treated domestic sewage effluent of up to 15 cubic metres (15m³) a day to ground, or up to 20 cubic metres (20m³) a day to surface water.

You do not need a permit if you discharge to a lake or pond that does *not* discharge into:

- a river or watercourse, or
- another pond that then discharges into a river or a watercourse

unless a notice has been served under Schedule 21 of the Environmental Permitting (England and Wales) Regulations 2016.

If you want to carry out any other activities, fill in the appropriate parts of the EPR application form. These can be found on our website.

Please check that this is the latest version of the form

available from our website. All relevant guidance documents can be found on our website.

Contents

- 1 About you
- 2 About this application
- 3 Your management system
- 4 Your site plan
- 5 About your discharge
- 6 Discharges to a river, stream, ditch or canal
- 7 Discharges into land (drainage field)
- 8 Discharges to tidal river, tidal stream, estuary or coastal waters
- 9 Discharges to a lake or pond
- 10 Discharges onto land
- 11 Payment
- 12 The Data Protection Act
- 13 Confidentiality and national security
- 14 Declaration

Note: You will need to fill in one form for each sewage treatment facility you are applying for.

1 About you

1a Who will be named on the permit?

Please give us the following details of who you want to be named on the permit.

An individual, or a group, or an organisation of individuals

Please give the details of the individual or, where relevant for groups or organisations of individuals, the main representative.

Title

MRS

First name

ROSEMARY

Last name

FOGGITT

Now complete your address in 1b

More than one individual

If more than one individual will be named on the permit, the details for each additional individual required above along with their address required by 1b below, must be provided together on a separate sheet.

Tell us the document reference you have given this sheet.

Document reference

MR PATRICK CONNERY

An organisation (group) of individuals

Please give us the following details of the organisation of individuals.

Type of organisation - For example, a charity, a partnership, a club, a group of individual householders, etc.

Joint householders

If 'Other', Please specify

Organisation name (if relevant)

A registered company or other corporate body

Company name

Company registration number

Date of registration (DD/MM/YYYY)

If you are applying as a corporate organisation that is now a limited company, please provide evidence of your status and tell us the reference number you have given this document with this evidence.

Document reference

Contact name for the company

Title

2 About this application

2a Have you spoken to us already about this application?

If you have had discussions with us before your application, give us the case reference or details on a separate sheet.

Case or document reference

2b About your sewage treatment facility

The term 'sewage treatment facility' is used throughout this application form. That term is explained in more detail in the guidance document that accompanies this application form.

Where is the sewage treatment facility?

Same as the address given in 1b above

Address

Postcode

Telephone - mobile

Telephone - office

Email address

2c National Grid Reference for the centre of your sewage treatment facility

National grid reference for the site (12 digit)

3 Your management system (see guidance note to part B6.5)

Your permit requires you (as the operator) to ensure that you manage and operate your activities in accordance with a written management system. You can find guidance on management systems in the guidance notes to part B6.5 and on our website

Tick this box to confirm that you have read the application form guidance and that your management system will meet our requirements.

☐

4 Your site plan

You **must** provide a plan for your sewage treatment facility as part of your application. See the guidance notes on Part B6.5 for what should be included on the plan.

We cannot process your application without a plan. If you do not send a plan we will have to contact you before we can progress your application.

Document reference

5 About your discharge

5a What type of premises does your sewage treatment facility serve?

For example, the number of houses or a description such as a pub, café, restaurant, office and so on.

5b When did your discharge start? (New or Existing)

Before 1 April 2010 (Existing)

☒

When was it built? (DD/MM/YYYY)

Now go to 5e

On or after 1 April 2010 (New)

☐

Now complete the rest of this section.

5c Could your discharge be made to the foul sewer?

Foul sewer means public or private foul sewer.

Before completing questions 5d and 5e, you must read the guidance notes that support this form. You will also need to contact your sewerage undertaker (usually your local water company) and you may also need to check if it is possible to connect to a private foul sewer.

How far away is the nearest foul sewer from the boundary of the premises (in metres)?

5d To assess if it is reasonable to discharge your effluent to foul sewer:

5d1 Discharges from domestic properties

Multiply the number of properties served by the sewage treatment system by 30 metres.

Number of domestic properties served by the sewage treatment system

x 30 metres =

metres

5d2 Discharges from all other premises, for example a pub, cafe, restaurant or office

Divide the volume of the discharge (in cubic metres) by 0.75 and then multiply this figure by 30 metres

Volume of the discharge (answer to question 5e)

cubic metres / 0.75 =

x 30 metres =

metres

Is your answer to question 5d1 or 5d2 above greater than the distance to the nearest foul sewer (answer to 5c)?

- No ☐ You do not need to explain why you cannot discharge your effluent into the foul sewer at this point. However we may request this information from you when we determine your application
- Yes ☐ You must explain why you cannot discharge your effluent into the foul sewer on a separate sheet giving a reference for the extra sheet. Before you submit the application, you must explore the possibility of connecting to the foul sewer, and send us evidence that you have approached the sewerage undertaker, including their formal response regarding connection, if relevant. You must also show the extra cost of connecting to a sewer compared to the treatment system you propose, and details of any physical obstacles for example roads, railways, rivers or canals.

We will only agree to the use of private treatment systems within sewered areas if you can demonstrate that:

- the additional cost of connecting to the foul sewer would be unreasonable
- connection is not practically feasible, or
- the proposed private treatment system can be shown to significantly benefit the environment

We are unlikely to grant a permit for a discharge of treated domestic sewage in circumstances where a private sewerage system is being proposed due to a lack of capacity in the nearest public sewerage network.

The guidance document which supports this application will help you understand what information you need to provide in order to answer this question.

Document reference for where you have given this justification

5e What is the maximum volume of effluent you will discharge in a day (in cubic metres)?

Maximum daily volume

If your discharge comes from a single domestic property, use Table 1 below to work this out.

Table 1 – discharges from a single domestic property	
Number of bedrooms in your house	Daily volume (cubic metres per day)
1 to 3	1
4 to 6	1.5
7 to 8	2

How to calculate maximum daily discharge volume from multiple domestic properties.

If you are discharging sewage from premises other than a single domestic property (for example, from a group of houses, a guest house or a very large house), the volume should be worked out using the industry code of practice known as 'Flows and Loads – 4', which is available from the British Water website. (To help you calculate this, we recommend you read the guidance notes on part B6.5 for more information.)

Show how you calculated the figure given in the box below. Continue on a separate sheet if necessary, and give the reference for the extra sheet below.

This single domestic house has 2/3 bedrooms so according to the above table the daily discharge volume is 1 m³

Document reference

5f What type of sewage treatment system will you be using to treat your effluent?

Package treatment plant that meets British Standard BS EN 12566

☐

Septic tank that meets BS EN 12566

☒

Other

☐

You must provide design details in the box below.

3 CHAMBER SEPTIC TANK

5g Sample point location

You must provide a sample point where a sample of your discharge can be safely taken before it has mixed with any other discharges such as rainwater run off if you are making:

- an existing or new discharge to surface water
- an existing discharge to groundwater and the volume is more than 5 cubic metres (5 m³) a day
- a new discharge to groundwater

This does not apply if you are discharging to ground up to 5 cubic metres (5 m³) a day from an existing system.

You must identify it on the plan required by section 4

Tell us where your sample point is:

Same as the outlet point

☐

Go to section 5h

Different to the outlet point

☐

Provide a grid reference

National grid reference for the sample point (12 digit)

5h Discharge point location

National grid reference for the discharge point (12 digit)

5i Where will your treated effluent discharge to?

Mark in Table 2 below where this effluent discharges to, and complete the relevant section.

If you are proposing to discharge multiple effluents, you must complete a separate application form for each effluent and submit the form, along with the correct application fee, for assessment.

Once you have answered all relevant questions in the section, continue to section 11.

Table 2		
Receiving		Relevant sections to complete
River, stream, ditch or canal	<input type="checkbox"/>	Answer section 6
Into land (drainage field)	<input checked="" type="checkbox"/>	Answer section 7
Tidal river, tidal stream, estuary or coastal waters	<input type="checkbox"/>	Answer section 8
Lake or pond	<input type="checkbox"/>	Answer section 9
Onto land (e.g. via reed bed or grass plot)	<input type="checkbox"/>	Answer section 10

6 Discharges to a river, stream, ditch or canal

6a Give the name of the watercourse, canal or the main watercourse it is a tributary of if you know it

Watercourse name

6b Is the discharge into a

River, stream or ditch ☐

Canal ☐

6c Does the watercourse dry up for part of the year?

Yes ☐

No ☐

6d Does the discharge reach the watercourse or canal by flowing through a surface water sewer?

No ☐

Yes ☐ Tell us the national grid reference for the entrance point below.

National grid reference (12 digit)

Now go to section 11.

7 Discharges into land (drainage field)

7a Is your infiltration system new or existing?

On or after 1 April 2010 (New) ☐

You **must** answer questions 7b to 7i, below.

Before 1 April 2010 (Existing) ☒

When was it built?

BEFORE ACQUISITION
OF THE PROPERTY IN

2006. EXACT DATE

7b Is your infiltration system designed and built to British Standard 6297:2007 + A1:2008? **NOT KNOWN**

Yes ☐

No ☒ Please provide details, on a separate sheet, of the design criteria used for your infiltration system. You must justify why it is not designed to British Standard 6297:2007 + A1:2008.

Document reference

INSTALLED PRIOR TO INTRODUCTION
OF THE STANDARD

7c On what date did you carry out a percolation test and dig a trial hole in line with British Standard 6297:2007 + A1:2008?

10/1

7d What is your percolation value (Vp) result (seconds per millimetre)?

You must show in the table below how you worked out the percolation value.

	Trial 1	Trial 2	Trial 3	Average
Hole 1				
Hole 2				
Hole 3				

7e Please show us how you have calculated the area (A) of your infiltration system

p x Vp x 0.25 for septic tanks = A Square metres

or

p x Vp x 0.20 for sewage treatment plants = A square metres

p is the number of people served by the tank based on maximum occupancy

Vp is the percolation value in seconds per millimetre

7f If known, mark on the plan you have provided the extent of the infiltration system. Please write on the plan the length and width of the sides in metres.

7g Is any part of your infiltration system within 50 metres of a well, spring or borehole?

No ☐ Go to question 7i

Yes ☒ You **must** identify the location of the well spring or borehole on the plan you have provided.

7h Is the well spring or borehole you have identified used to supply water?

No ☐

Yes ☒ You must describe what the water supplied is used for.

GENERAL HOUSEHOLD

7i Is any part of your infiltration system within 10 metres of a watercourse?

No ☐

Yes ☒ Identify the location of the watercourse on the plan you have provided.

Now go to section 11.

8 Discharges to tidal river, tidal stream, estuary or coastal waters

8a Give the name of the tidal river, tidal stream, estuary or area of coastal water if you know it

8b Is the discharge into a

Tidal river ☐

Tidal stream ☐

Estuary ☐

Coastal water ☐

8c Is the discharge point above the mean low water spring tide mark?

Yes ☐

No ☐ You must explain below why the discharge cannot be made below this point.

8d Does the discharge reach the tidal river, tidal stream, estuary or area of coastal water by flowing through a surface water sewer?

No ☐ You've completed this section. Now go to section 11.

Yes ☐ You must provide the National Grid Reference, below.

8e Give the National Grid Reference where the discharge enters the surface water sewer)

Now go to section 11.

9 Discharges to a lake or pond

9a Give the name of the lake or pond if you know it

9b What is the surface area of the lake or pond in square metres?

9c What is the maximum depth of the lake or pond in metres?

9d What is the average depth of the lake or pond in metres?

Now go to section 11.

10 Discharges onto land

10a Select from the table below the type of area where the effluent is disposed of

Area type	Tick the relevant area type X
Unlined reed bed	<input type="checkbox"/>
Unlined grass plot	<input checked="" type="checkbox"/>
Unlined wetland	<input type="checkbox"/>
Other	<input type="checkbox"/> You must provide details in the box below.
<div></div>	

10b What is the surface area (in square metres) of the land used for your disposal?

45m² approx

10c Is any part of your infiltration system within 50 metres of a well, spring or borehole?

No ☐ Go to question 10e

Yes ☒ Identify the location of the well spring or borehole on the plan you have provided.

10d Is the well spring or borehole you have identified used to supply water?

No ☐

Yes ☒

You must describe in the box below, what the water supplied is used for.

GENERAL HOUSEHOLD USE

10e Is any part of your infiltration system within 10 metres of a watercourse?

No ☐

Yes ☒

Identify the location of the watercourse on the plan you have provided.

11 Payment

11a What date do you want the permit for this effluent to start?

IMMEDIATELY

Please note that this is the date that your annual subsistence charges will start, even if you have not started to discharge, unless you contact us to change (delay) the start date.

11b Will the discharge take place all year?

Yes ☒

No ☐

Please give details of the months when you will make the discharge

11c Is the maximum volume of effluent you will discharge five cubic metres (5m³) or less a day?

The maximum volume is the figure you have given in section 5e.

Yes ☒ The reduced application fee applies and you do not have to pay an annual subsistence charge.
Now go to section 11e.

No ☐ The standard application fee applies. Please note that there is an annual subsistence charge to cover the costs we incur in the ongoing regulation of the permit.

Now continue to fill in the questions in this section.

11d Who can we talk to about your billing or invoice?

Same as the application contact in 1b

☐ Go to section 11e

11f Paying by electronic transfer

If you choose to pay by electronic transfer use the following information to make your payment.

Company name: Natural Resources Wales

Company address: Income Dept., PO BOX 663, Cardiff, CF24 0TP

Bank: RBS

Address: National Westminster Bank Plc, 2 ½ Devonshire Square, London, EC2M 4BA

Sort code: 60-70-80

Account number: 10014438

Reference number

You can use any reference number but we prefer the number to be 'EPR' followed by the first five letters of your organisation name followed by a four-digit number.

For example, for a company named Joe Bloggs Ltd, the reference number might be EPRJOEBLOGGS0001. (Remember you can use any four-digit number at the end.)

The reference number you will provide will appear on our bank statements so we can check your payment. We may need to contact your bank to make sure the reference number is quoted correctly.

You should also email your payment details and payment reference number to banking.team@naturalresourceswales.gov.uk / banking.team@cyfoethnaturiolcymru.gov.uk or fax it to 0300 065 3001 and enter it in the space provided below.

BACS reference

EPRRFoggy0001

Amount paid

Making payments from outside the UK

These details have changed. If you are making your payment from outside the United Kingdom (which must be received in sterling), our IBAN number is GB70 NWBK6070 8010 0144 38 and our SWIFT/BIC number is NWBKGB2L.

If you do not quote your payment reference number, there may be a delay in processing your payment and application.

11g Paying by credit or debit card

If you are paying by credit or debit card, please call us on 0300 065 3000

11h Paying by cheque or postal order

You should make cheques or postal orders payable to Natural Resources Wales and they should be marked 'A/c Payee'.

We will not accept post-dated cheques (cheques with a future date written on them).

Cheque/ postal order number

Amount paid

12 The Data Protection Act 2018 and the General Data Protection Regulations

We, the Natural Resources Body for Wales (hereafter "Natural Resources Wales"), will process the information you provide so that we can:

- deal with your application;
- make sure you keep to the conditions of the licence, permit or registration;
- process renewals; and
- keep the public registers up to date.
- We may also process or release the information to:
- offer you documents or services relating to environmental matters;
- consult the public, public organisations and other organisations (for example, the Health and Safety Executive, local authorities, the emergency services, the Department for Environment, Food and Rural Affairs) on environmental issues;
- carry out research and development work on environmental issues;
- provide information from the public register to anyone who asks;
- prevent anyone from breaking environmental law, investigate cases where environmental law may have been broken, and take any action that is needed;
- assess whether customers are satisfied with our service, and to improve our service; and
- respond to requests for information under the Freedom of Information Act 2000 and the Environmental Information Regulations 2004 (if the Data Protection Act allows).

We may pass the information on to our agents or representatives to do these things for us.

13 Confidentiality and national security

We will normally put all the information in your application on a public register of environmental information. However, we may not include certain information in the public register if this is in the interests of national security, or because the information is confidential.

Confidentiality

You can ask for information to be made confidential by ticking the box below and enclosing a letter with your application giving your reasons. If we agree with your request, we will tell you and not include the information in the public register. If we do not agree with your request, we will let you know how to appeal against our decision, or you can withdraw your application.

Confidentiality is unlikely to be applicable for a small-scale sewage discharge except for information about ex-directory telephone numbers. In those cases please write to tell us that information should not go on the public register.

Only tick the box below if you wish to claim confidentiality for your application.

Please treat the information in my application as confidential.

☐

National security

You can tell the Secretary of State that you believe including information on a public register would not be in the interests of national security. You must enclose a letter with your application telling us that you have told

the Welsh Ministers and you must still include the information in your application. We will not include the information in the public register unless the Welsh Ministers decides that it should be included.

You can find guidance on national security in 'Core Environmental Permitting Guidance' published by Defra.

You cannot apply for national security via this application.

14 Declaration

You must read this section before making the declaration and sending your form to us.

A relevant person should make the declaration.

You must be a relevant person or have the authority of a relevant person to sign this application on their behalf. An agent acting on behalf of an applicant is NOT a relevant person.

Each individual (or individual trustee) who is applying for their name to appear on the permit must complete this declaration. You can send a separate document with the relevant information if there are not enough spaces to sign, below.

Relevant people means each applicant, and in the case of a company, a director, manager, company secretary or any similar officer or employee listed on current appointments in Companies House. In the case of a Limited Liability Partnership (LLP), it includes any partner. If the permit holder is an organisation of individuals, each individual (or individual trustee) must complete the declaration.

To simplify and speed up the application process we recommend that the declaration is filled in by an officer of a company or one of the partners in a Limited Liability Partnership (LLP).

If you wish a manager, employee or consultant etc. to sign the declaration on behalf of a relevant person, we will need written confirmation from a relevant person; that is, an officer of the company, a partner in the LLP or the individual, confirming that the person has the authority to fill in the declaration.

If you are joint permit holders you should each fill in your own declaration. We have provided extra spaces for this below. Please send in a separate sheet with your application if you need more room for signatories.

Where the operator is the subject of any insolvency procedure, the declaration must be filled in by the official receiver/appointed insolvency practitioner.

15a Are you signing the form on behalf of a relevant person?

If you are *not* a relevant person, but want to sign the application on their behalf, you must include confirmation that you can do this.

I have included written confirmation from a relevant person to confirm I can sign on their behalf. ☐

15b Declaration

If you knowingly or recklessly make a statement which is false or misleading to help you get an environmental permit (for yourself or another person), you are committing an offence under the Environmental Permitting (England and Wales) Regulations 2016.

I declare that the information in this application is true to the best of my knowledge and belief. I understand that this application may be refused or approval withdrawn if I give false or incomplete information.

I understand that if I knowingly or recklessly make a false or misleading statement:

- I may be prosecuted; and
- if convicted, I may have to pay a fine and/or go to prison.

By signing below, you are confirming that you understand and agree with the declaration above.
