

Schedule 6 - Notification

Part A

Permit Number	BS8621	<div style="border: 1px solid blue; padding: 5px; display: inline-block;"> RECEIVED 10 JUN 2014 </div>
Name of Operator	Cory Environmental (Central) Limited	
Location of Installation	Bangor Road Johnstown Wrexham LL14 6ET	
Time and date of the detection	Date entered onto Cory database	

b) Notification requirements for breach of a limit

To be notified within 24 hours of detection unless otherwise specified

Emission point reference/source	ID	Date	NH4-N (mg/l)	NH4-N limit	CI (mg/l)	CI limit
Parameter(s)	HA12B(B)	21/01/2014	0.75	2	1100	450
Limit		11/02/2014	0.02		960	
Measured value and uncertainty		13/03/2014	1.10		1400	
Date and time of monitoring		08/04/2014	0.42		1000	
		13/05/2014	0.18		1200	
Measures taken, or intended to be taken, to stop the emission	N/a, as all the evidence indicates that these results are not due to the site.					

Part B

Any more accurate information on the matters for notification under Part A.	Borehole 12B(B) is 300+ metres away from the site, on the side of the slip road to the A483 dual carriageway. It is highly unlikely that an emission is occurring, as ammoniacal nitrogen is compliant.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	<p>No intended action is deemed necessary at this time. We will review the next few sets of results. The results remain sporadic and until any increasing trends are confirmed across a range of leachate-indicating substances, these results should be viewed as representative of background concentrations and/or weather events.</p> <p>The permit limit has been raised to 450 mg/l for borehole 12 due to historical results; however as background concentrations continue to vary this may need to be reviewed again in future.</p> <p>This borehole is always purged prior to sampling. It is purged completely dry on occasion and we will endeavour to purge it completely dry more often, to see whether that has any effect on the results.</p>
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment or harm which has been or may be caused by the emission	N/a
The dates of any unauthorised emissions from the installation in the preceding 24 months.	See previous Schedule 6 reports.

Name*	Debbie Weston
Post	Environmental Data Manager
Date	10/06/2014
