Schedule 6 - Notification

Part A

Permit Number	BS8621
Name of Operator	Cory Environmental (Central) Limited
Location of Installation	Bangor Road Johnstown Wrexham LL14 6ET
Time and date of the detection	Date entered onto Cory database

b) Notification requirements for breach of a limit

To be notified within 24 hours of detection unless otherwise specified

Emission point reference/source	ID	Date	NH4-N (mg/l)	NH4-N limit	Cl (mg/l)	Cl limit
Parameter(s)						
Limit	HA12B(B)	21/01/2014	0.75	2	1100	450
Measured value and uncertainty		11/02/2014	0.02		960	
Date and time of monitoring		13/03/2014	1.1		1400	
		08/04/2014	0.42		1000	
		13/05/2014	0.18		1200	
		24/06/2014	0.06		1300	
		15/07/2014	0.36		1300	
		13/08/2014	<0.015		1300	
		16/09/2014	0.31		1100	
		14/10/2014	0.36		1100	
		11/11/2014	0.28		1000	
Measures taken, or intended to be taken, to stop the emission	N/a, as all the evidence indicates that these results are not due to the site.					

Part B

Any more accurate information on the matters for notification under Part A.	Borehole 12B(B) is 300+ metres away from the site, on the side of the slip road to the A483 dual carriageway. It is highly unlikely that an emission is occurring, as ammoniacal nitrogen is compliant.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	<p>This borehole is always purged prior to sampling and is often purged completely dry. This does not seem to have any discernible effect on the chloride.</p> <p>No intended action is deemed necessary at this time. We will review the next few sets of results. The results remain sporadic and until any increasing trends are confirmed across a range of leachate-indicating substances, these results should be viewed as representative of background concentrations and/or weather events.</p> <p>The permit limit has been raised to 450 mg/l for borehole 12 due to historical results; however as background concentrations continue to vary this may need to be reviewed again in future.</p>
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment or harm which has been or may be caused by the emission	N/a
The dates of any unauthorised emissions from the installation in the preceding 24 months.	See previous Schedule 6 reports.
