

Schedule 6 Notification

Part A

Permit Number	GP3830 BG
Name of Operator	WRG Waste Services Limited
Location of Installation	Pen-Y-Bont Landfill, Pentre, Chirk
Time and date of the detection	30 th December 2014

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or fugitive emission which has caused, is causing or may cause significant pollution

To be notified within 24 hours of detection

Date and time of the event	n/a
Reference or description of the Location of the event	n/a
Description of where any release into The environment took place	n/a
Substance(s) potentially released	n/a
Best estimate of the quantity or rate Of release substances	n/a
Measures taken or intended to be taken, To stop any emission	n/a
Description of the failure or accident	n/a

(b) Notification requirements for the breach of a limit

To be notified within 24 hours unless otherwise specified below

Emission point reference/ source	Leachate Point; LM4B				
Parameters(s)	Leachate				
Limit	1.00m				
Measured value and uncertainty	Sample ID	Determinand	Trigger	Value	
	LM4B	Leachate	1.00m	1.62m	
Date and time of monitoring	Monitoring took place on the 30 th December				
Measures taken or intended to be taken, to stop any emission	Silt and debris at base of well was inhibiting pump performance in well LM4b, so pump raised from base of well to allow pumping to continue unhindered. With pump raised, leachate level can be controlled at approx 1.6m, slightly above the compliance level. Mobilisation of vacuum tanker				

	to desilt well at earliest opportunity, so that pump can be re-set at base of well and compliance re-established.
--	---

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on The environment was detected	n/a
Substance(s) detected	n/a
Concentrations of substances Detected	n/a
Date of monitoring/sampling	n/a

Part B

Any more accurate information on the matters for notification under Part A.	To be completed once desilting has been carried out.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	All wells desilted w/c 12 th January including LM4B.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment or harm which has been or may be caused by the emission	Well pumped to compliant level and dip measurement carried out on 30 th January during scheduled monitoring. Level at 0.97m.
The dates of any unauthorised emissions from the installation in the preceding 24 months.	As previously reported via Schedule 6.
