

Schedule 6 - Notification

This page outlines the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the PPC Regulations.

Part A

Permit Number	GP3830BG
Name of operator	FCC Environment
Location of Installation	Pen-Y-Bont Landfill, Pentre, Chirk
Time and date of the detection	29 th October 2015 (Sampling) 09 th November 2015 (report received)

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or fugitive emission which has caused, is causing or may cause significant pollution

To be notified within 24 hours of detection

Date and Time of the event	N/A
Reference or description of the location of the event	N/A
Description of where any release into the environment took place	N/A
Substances(s) potentially released	N/A
Best estimate of the quantity or rate of release of substances	N/A
Measures taken, or intended to be taken, to stop any emission	N/A
Description of the failure or accident.	N/A

(b) Notification requirements for the breach of a limit	
Emission point reference/ source	Groundwater Borehole T10.
Parameter(s)	Ammoniacal Nitrogen as N (mg/l)
Limit	1.9mg/l
Measured value and uncertainty	Lab uncertainty 9.4% Measured value 2.1mg/l
Date and time of monitoring	29 th October 2015 (Sampling) 09 th November 2015 (report received)
Measures taken, or intended to be taken, to stop the emission	Laboratory uncertainty at 95% confidence returns a result of 1.71mg/l to 2.49mg/l Laboratory uncertainty at 99% confidence returns a result of 1.51mg/l to 2.69mg/l This borehole will be subject to an extended purge during the next scheduled sample round

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period
As above	

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	Non detected
Substances(s) detected	As above
Concentrations of substances detected	As above
Date of monitoring/sampling	As above

Part B to be supplied as soon as practicable

Any more accurate information on the matters for notification under Part A.	
Measures taken, or intended to be taken, to prevent a recurrence of the incident	
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission	
The dates of any unauthorised emissions from the installation in the preceding 24 months.
