

Schedule 1 - Notification of abnormal emissions

This page outlines the information that the Operator must provide to satisfy conditions 5.1.1 and 5.1.2 of this Permit.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the PPC Regulations.

Part A

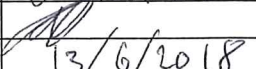

Permit Number	AP3433ES
Name of Operator	2 Sisters Red Meat t/a St Merryn Foods
Location of Installation	Merthyr Tydfil
Location of the emission	Effluent Treatment Plant
Time and date of the emission	03/05/2018

Substance(s) emitted	Media	Best estimate of the quantity or the rate of emission	Time during which the emission took place
Low pH	Treated Effluent	pH 5.8	03/05/2018

Measures taken, or intended to be taken, to stop the emission	Emission due to a faulty pH probe which was identified on the day and discharge ceased until pH was corrected. pH probe replaced and additional monitoring continued.
---	---

Part B

Any more accurate information on the matters for notification under Part A.	
Measures taken, or intended to be taken, to prevent a recurrence of the incident	pH probe replaced and additional monitoring continued.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment or harm which has been or may be caused by the emission	Treated effluent will have subsequently been stored in PP8 and PP11 prior to discharge and, although retrospectively unquantifiable, will have balanced somewhat with the subsequently treated effluent before discharge.
The dates of any unauthorised emissions from the installation in the preceding 24 months.	01/05/18 – Emission of 900kg of R448a to air 22/02/18 – W1 Emission of Mineral oil and hydrocarbon and suspended solids 08/02/18 – W1 Emission of Mineral oil and hydrocarbon and suspended solids 23/09/17 – Contractor HGV collision resulting in fuel spill 13/04/17 – W1 Emission of Mineral oil and hydrocarbon 30/03/17 – S1 Emission of Mineral oil and hydrocarbon 02/03/17 – W1 Emission of Mineral oil and hydrocarbon
