Dear Madam

Regulated facility: The Creamery, Aberarad, Newcastle Emlyn, SA38 9DQ

Notice to supply information – NOISE and ODOUR REDUCTION MEASURES

As you are aware in July 2021 NRW received your company's BAT Noise Audit report¹ pertaining to your installation at Newcastle Emlyn.

Whilst NRW welcome the submission some information is still required. Specifically the cost benefit analysis into the noise reduction measures and the timetable for completion of those measures identified for implementation. This requirement has been formalised in this attached notice and the deadline for compliance has been derived following discussions with your site representatives.

NRW have also received a report detailing the findings of an odour review² undertaken on your company's behalf. The report outlines a series of improvements to reduce the odour emissions from the facility. We have requested an action plan setting out a proposed timetable for the implementation of these measures. Again this requirement has been formalised in the attached notice and the deadline has been derived following discussions with your site representatives.

If you would like to discuss this letter, please do not hesitate to contact me

Yours faithfully

Neil Herbert
