At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Wales officer Julia Lloyd met with poultry operators Mr & Mrs Lawrence to carry out the routine poultry inspection for the site on Monday 27 July 2022 at 12:00. Thank you for your time during the site visit.

Actions to be addressed –

Site Entrance Identification notice –

Notice had become faded and will now be renewed and replaced. The site entrance identification notice should be easily readable from outside the site. Please confirm this action has been carried, sending a photograph as evidence will be sufficient by the *26 August 2022*.

The notice must include -

- emergency contact name and telephone number of the permit holder and/or operator
- statement that the site is permitted by Natural Resources Wales
- permit number - EPR
- Natural Resources Wales general enquiries number and incident line - **0300 065 3000**.

1.2 Energy Efficiency (page 15-1.3 within document "How to comply") - Please provide a statement of your energy source and how attempts are made to reduce usage, this review must be carried out every 4 years. *Please produce an Energy efficiency review plan and supply to NRW by 26 August 2022.*

1.3 Water Usage (page 18 1.4 within document "How to comply") - Please provide information to show an audit is carried out to try and reduce water consumption, a review of water usage must be carried out within 4 years of the permit issued - e.g., you explained that all water consumption is monitored and recorded daily, equipment check to ensure no leaks, up to date feeders used etc. *Please produce a Water Usage review plan and send to NRW by 26 August 2022.*

1.4 Disposal of Waste (page 20 1.5 within document "How to comply") – A review of waste must be carried out within 4 years of issue of permit and opportunities identified to avoid/ reduce waste being produced. e.g. consider if you can avoid producing the waste and any way you plan to use less waste etc. *Please produce a Waste review plan and send to NRW by 26 August 2022.*

Permit variation - The permit variation was discussed with permit holders. Information has been provided with regards to submitting information for a variation through NRW.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
