Dear Mrs. Manns,

### **We need more information about your application**

**Application reference: PAN-018778**

**Operator: Dwr Cymru Cyfyngedig**

**Facility: Afan Combined Heat and Power Facility, Afan Wastewater Treatment Works  
Harbour Road, Phoenix Walk, Port Talbot Steelworks, Port Talbot, SA13 1RA**

Thank you for your application received on 28 July 2022. Unfortunately, we need to ask you for some more details before we can consider duly making your application. The additional information required is summarised below.

### **Incomplete Application Forms**

- Application Form Part C3 Appendix 5 references documents which have not been included with your application. Please submit the missing documents.

### **Application Fee**

- We have been unable to find evidence of the two payments relating to the application fee. Please confirm dates payments were made; account details the fees were sent from; and amounts paid, so we can confirm payment has been received.

### **Risk Assessments**

- The Environmental Risk Assessment (ERA) submitted as part of the supporting information does not adequately assess potential impacts of odour and noise emissions from the processes to be added to the permit. The ERA should consider hazards and risks from the site as a whole (i.e. the combined risk of existing and new activities to be permitted). Please provide further assessment for odour and noise (following our H1 guidance), and where risks cannot be screened out, provide quantitative odour and noise impact assessments in line with our guidance: [How to comply \(publishing.service.gov.uk\)](#).
