---

Hello,

To introduce myself, I'm Marc Murray, Projects Director for Cierco Energy and the Project Manager for the two Llŷr Floating Offshore Wind projects situated in the Celtic Sea. Last year the Crown Estate announced its intent to grant Floventis (a Joint Venture company between Cierco and SBM Offshore) two 100MW test and demonstration seabed rights for the Llŷr project (<https://www.llyrwind.com/>). The leases are adjacent to the Military Practice Area at Castlemartin and I'm getting in contact seeking to arrange an initial briefing meeting with DIO about the project and to discuss our approach and timescales to obtaining the appropriate licences and consents.

One of the immediate considerations is our intent to undertake offshore surveys from July onwards and wanted to make sure that the appropriate channels of communication are arranged, avoid any interference with MoD activities in the area during this period and that you have a full background and knowledge of our activities before they are carried out.

I'd be happy to have an initial chat either in person or on an online platform such as TEAMS, or if you prefer an alternative method of communication please let me know and we'll do our best to oblige. We'll make ourselves available to have the call/meeting to suit the DIO over the coming days and weeks and we would be grateful if a time could be identified, and the call arranged as soon as possible. I'd also be grateful if you could identify a project lead within DIO so that we can continue a direct dialogue.

Thanks for your time and I look forward to hearing back from you soon.

With kind regards

Marc Murray
