3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural resources Wales officer Ffion Jones met with poultry operator Cristi Nicolae to carry out a routine poultry inspection for Gaufron Poultry site on Friday 23rd September 2022 at 11am. Thank you for your time during the visit.

Non-Compliances (recorded in summary) Actions to be addressed-

Site Entrance Identification notice-

Please produce site entrance identification notice and locate outside the permitted site by the 21st October 2022 and provide photo evidence of this action. The Site Entrance Identification Notice should be easily readable from outside the site.

The notice must include-

- emergency contact name and telephone number of the permit holder and/or operator
- statement that the site is permitted by Natural Resources Wales
- permit number - EPR
- Natural Resources Wales general enquires number and incident line - 0300 065 3000

Accident Management Plan -

Please submit the following actions via email to Ffion Jones by 21st October 2022.

- *Please attach an accurate copy of the Drainage Plan to the Accident Management Plan.* The drainage plan must contain site layout drawn to scale, direction of flow, dirty water tanks/channels, clean water tanks/channels, diverted valves, surface and foul drains, identify sensitive receptors and any environmental hazards e.g. gas.
- *Please update and attach a copy of the Raw Materials List to the Accident Management Plan.* Raw Materials list should include any raw materials that are used within the permitted site area, maximum amount that is likely to be stored at any one time, annual throughput and description of use. For example (add and amend table as appropriate for site specific raw materials).

Energy efficiency review (page 15 - 1.3 within document 'How to Comply')

Please provide a statement of your energy source and how attempts are made to reduce usage and send to Ffion Roberts by 21st October 2022. The review must be carried out every 4 years.

Maintenance Records

From present, please record all failures or damages on site and what action is taken to remediate the problem.

Updating permit

Please update trading name on NRW permit by the 21st October 2022. Complete Part A and C0.5 (attached) and send to Permit Receipt to be processed.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
