

Schedule 5 - Notification

This page outlines the information that the Operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet, and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	EPR/PR3733PC V011
Name of Operator	Biffa Waste Services Limited
Location of Installation	Trecatti Landfill Site Fochriw Road Merthyr Tydfil Mid Glamorgan CF48 4AB
Time and date of the detection	01/06/22

(a) Notification requirements for any malfunction, breakdown or failure of equipment or techniques, accident, or fugitive emission which has caused, is causing or may cause significant pollution

To be notified within 24 hours of detection	
--	--

Date and Time of the event	n/a
Reference or description of the location of the event	n/a
Description of where any release into the environment took place	n/a
Substances(s) potentially released	n/a
Best estimate of the quantity or rate of release of substances	n/a
Measures taken, or intended to be taken, to stop any emission	n/a
Description of the failure or accident.	n/a

(b) Notification requirements for the breach of a limit	
To be notified within 24 hours of detection unless otherwise specified below	
Emission point reference/ source	D2 (81705002) D3 (81705003)
Parameter(s)	Deposited Dust
Limit	Deposited Dust – 200mg/m ² /day
Measured value and uncertainty	D2 – 1300mg/m ² /day D3 - 550mg/m ² /day
Date and time of monitoring	23/05/2022 – 24/05/2022
Measures taken, or intended to be taken, to stop the emission	Deposited dust and PM10 particulate monitoring is carried out every 6 months and dust suppression controls are in place.

(c) Notification requirements for the detection of any significant adverse environmental effect	
To be notified within 24 hours of detection	
Description of where the effect on the environment was detected	n/a
Substances(s) detected	n/a
Concentrations of substances detected	n/a
Date of monitoring/sampling	n/a

Part B to be supplied as soon as practicable

Any more accurate information on the matters for notification under Part A.	Rain and saturated ground conditions were noted during the time of sampling. We believe the result to be a laboratory error as the spread of dust would have been suppressed under the reported weather conditions. A query has been raised with the laboratory.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	Dust monitoring will continue on a 6 monthly basis and dust suppression controls are implemented during dry conditions.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission	No pollution to the environment occurred.
The dates of any unauthorised emissions from the installation in the preceding 24 months.	Please see previous Schedule 5 Notifications
