Hi Bugo,

If you are submitting a marine licence application then yes, it will require a marine licence application form. You can find information about marine licences and application forms [here](#).

If you have any further questions please get back in touch and I will be happy to help.

Thanks,
Jodie

Dear Marine Licencing Team,

Thank you for getting in touch regarding our planned works at Barmouth Viaduct and Felga Fach.

Please could you advise if I need to complete a bespoke application form for a marine licence, if different from the attached Notice of Intent form recently submitted to Natural England.

Regards,

Good afternoon Bugo

You will require a marine licence for any works taking place within the Welsh marine licensable area which extends seawards from mean high water springs (MHWS) to the territorial limit. This includes any works taking place above the marine licensable area including bridges and viaducts. Further information on the marine licensable area can be found on our website here [Natural Resources Wales / Activities that need a marine licence](#). Please note, we do not define MHWS but ask Applicants to provide evidence if the exact line is in question.

Kind regards
