## **MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING**

### **LICENCE FOR MAINTENANCE WORK TO EXISTING COASTAL DEFENCE STRUCTURE AT SUDBROOK.**

#### **LICENCE NUMBER: CML2252**

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, duly made on 8 September 2022 for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **CML2252** and its conditions.

#### **Advisory Note**

Condition 3.20 of your Marine Licence requires that mitigation detailed within the Sudbrook RA2140 – Defence Maintenance Habitat Regulation Assessment (HRA) (document reference EV000924/HRA-1) is implemented. Additional advice has been provided by NRW and Natural England surrounding mitigation proposed to reduce impact on birds. On page 27 it details that during poor weather condition works will be avoided. Following advice, we would advise you that as well as stormy weather this must include periods of severe cold weather i.e., when temperatures of zero degrees Celsius, or below. Where these temperatures are recorded, works should not take place for seven consecutive days (allowing short periods of thaw). We also advise that wherever possible night time works should be avoided.

Marine Licence, **CML2252**, constitutes a statutory consent; therefore, the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **CML2252** carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **CML2252** is solely granted for the work to be undertaken at **Sudbrook**; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.
