NRW Lead Officer: Ffion Jones.

Report sent to: Robert & Tracey Powell, owners/operators on 10/10/2022.

1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
C2 - General Management - Management system and operating procedures	C4 No impact	1.1 General Management
D2 - Incident Management - Accidents, emergency and incident planning	C4 No impact	1.1 General Management
B2 - Infrastructure - Closure and decommissioning	C4 No impact	1.1 General Management

Result types are explained in more detail in the 'Important Information' section below.

Total number of non-compliances recorded	Total non-compliance score
3	0.3

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
C2	Ensure regular maintenance checks, failures and actions taken are recorded	11/10/2022
D2	Ensure Drainage Plan and Raw Materials List are attached to Accident Management Plan. Please ensure a copy is stored in gatehouse	02/11/2022
B2	Please create a Site Closure Plan and provide NRW sight of the documentation	02/11/2022

Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Natural Resources Wales officer Ffion Jones met with poultry owner/operators Robert and Tracey Powell to carry out a routine poultry inspection for the site on Wednesday 5th October 2022 at 10:30am. Thank you for your time during the visit.

Non-Compliances (recorded in summary) Actions to be addressed -

Inspection and Maintenance

Please implement this action immediately. Please record and log any maintenance checks, damages, failures and what action was taken to remediate the work. Please include details such as damage/failure, date, time, action taken to repair, date/time of action.

Action Management Plan

Please ensure a drainage plan and a raw materials list is attached to the Accident Management Plan. Please provide a complete copy of the Action Management Plan in an accessible location e.g. gatehouse by 02/11/2022.

The Drainage Plan must include site layout drawn to scale, direction of flow, dirty water tanks/channels, clean water tanks/channels, diverter valves, surface and foul drains, identify sensitive receptors and any environmental hazards.

The Raw Materials List should include any raw materials that are used within the permitted area, maximum amount that is likely to be stored at any one time, annual throughput and description of use. For example (add and amend the table as appropriate for site specific raw materials) -

Raw Materials	Maximum amount stored at any one time	Annual throughput	Description of use
Water			
Gas			
Diesel			
Oil			
Chemicals (specify which ones)			
Scrubber inputs e.g. acid			
Biosecurity/Disinfectants (specify which ones)			
Manganese			
Medicines (specify which ones)			
Wood shaving			
Bedding			

etc.

Site Closure Plan

Please construct a Site Closure Plan and send document to Ffion Jones by 2nd November 2022.

The aim of the Site Closure Plan is to ensure that the site can be decommissioned to avoid any pollution risk and return the site to satisfactory state. The plan should include instruction on how to store/dispose materials on site e.g. litter, gas, diesel, services, waste materials, feed, cleaning operations, intension for housing etc. The plan should be reviewed and maintained to ensure that it takes account of pollution risks that may arise due to changes in site operations.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
