Dear Wayne Hope

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

LICENCE FOR CENTRAL RHYL COASTAL DEFENCES SCHEME

LICENCE NUMBER: CML2152

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, duly made on 06 October 2021, for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **CML2152** and its conditions.

Advisory Note

I would like to draw your attention to licence condition 3.18. Prior to submission of the CEMP for approval by NRW as the Licensing Authority, it is strongly advised that you engage with NRW Technical Experts by contacting the Marine Area Advice and Management Team marine.area.advice@cyfoethnaturiolcymru.gov.uk to ensure they agree with the actions outlined in the document. This will help ensure when the CEMP is submitted to NRW Permitting Services (NRW PS) as the Licensing Authority, it can be approved in a timely manner as possible. We have also provided (attached to the licence email) for your review the following best practice guidance – Guidance for Pollution Prevention- works and maintenance in or near water (GPP5).

It is also advised that you engage with The Royal Commission on the Ancient and Historical Monuments of Wales (RCAHMW) and The Clwyd-Powys Archaeological Trust when completing the Written Scheme of Investigation (licence condition 3.19) to ensure they agree with the actions outlined within the document, again, to assist with approval in a timely manner upon submission to NRW PS as the Licensing Authority.

When notifying the UK Hydrographic Office in line with licence condition 3.21, you should do so using the following contact information: The Source Data Receipt team, UK

Hydrographic Office, Taunton, Somerset, TA1 2DN (Email: sdr@ukho.gov.uk; Tel: 01823 337900).

We recommend that marine grade concrete is to be used for the Project and that any storage of materials do not block the access required by the Rhyl Lifeboat Station. We have also provided

As a further precautionary measure we recommend a small buffer zone (5-10m) around the demarcation proposed for the sensitive features (biogenic reefs) located within the intertidal zone, to avoid disturbance impacts from construction and/or maintenance traffic.

Marine Licence, **CML2152**, constitutes a statutory consent; therefore, the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **CML2152** carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **CML2152** is solely granted for the work to be undertaken at Rhyl; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within **28 days** of the receipt of this letter.
