Dear Mr Stuart Davies

MARINE AND COASTAL ACCESS ACT 2009: PART 4 – MARINE LICENSING

LICENCE FOR **SWANSEA COUNCIL** to carry out **Geotechnical Investigation of the Existing River Tawe**

LICENCE NUMBER: **RML2260**

I am writing to advise you that the Marine Licensing Team, on behalf of the Welsh Ministers, as Licensing Authority, has considered your application, dated **20 October 2022** for a Marine Licence under Part 4 of the Marine and Coastal Access Act 2009, and hereby grant a Marine Licence for you to undertake the above stated works.

Accordingly, please find attached for your review and retention a copy of Marine Licence **RML2260** and its conditions.

Advisory Note

Following consultation with Advisory, we also issue the advise that:

- If required, bankside scrub clearance should be avoided during the bird nesting season (1st March to August 31st) as nesting birds are protected under the Wildlife and Countryside Act 1981 (as amended). If scrub clearance is required during this period, we advise that a nesting bird survey is carried out to ensure no nests are disturbed.
- Otters are known to be present on the river Tawe. Otters are European Protected Species, and their resting places are protected under the Conservation of Habitats and Species Regulations 2017. Dense riverside vegetation such as scrub or any potential otter resting areas should be checked by an experienced ecologist prior to any work taking place within those areas.
- During the carrying out of the works, if the stability of the riverbank was undermined in any way, you notify the Development Flood Risk Team and discuss options to remedy any such detriment.

Marine Licence, **RML2260**, constitutes a statutory consent; therefore the conditions set out herein must be complied with in full and will be binding upon any agent or contractor who undertakes any activity on the project on your behalf.

You are urged to read the conditions of Marine Licence **RML2260** carefully, in particular the need to advise Welsh Government Marine Enforcement Officers of the commencement of works within **10 days** prior to work starting.

Marine Licence, **RML2260** is solely granted for the work to be undertaken at **the lower River Tawe**; however, it does not absolve you from applying for further consents or licences as necessary to enable the full completion of your project.

If the works authorised by this Licence are unlikely to be completed by the expiry date, the Licence Holder should apply for a replacement marine licence **at least 4 months** prior to the expiry date of this Licence.

Should you require clarification as to the reasons for the inclusion of any of the conditions attached to the Licence then you must request written notice within 28 days of the receipt of this letter.
