On 22/11/2022, between 12:00 and 12:20.

Parts of permit assessed: Whole permit

**NRW Lead Officer:** Eurnyn Roberts, accompanied by: Stuart Jones, Bethan Lewis, Simon Roberts.

**Report sent to:** Victoria Collier, Catchment Manager, on 30/11/2022.

### 1. Summary of our findings (full details in section 4)

Part of permitted activity assessed (criteria)	Assessment result	Permit condition
WQ-C1 - Emissions and monitoring - Emissions to water	Assessed (A)	

Result types are explained in more detail in the 'Important Information' section below.

### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

This site was visited on the 22nd of November 2022 as part of a group of four sites on the Afon Ogwen. The Afon Ogwen drains down into the Menai Straits which is a designated shellfish water. The intention of the visit was to see the site, to ensure its compliant with its permit, and if possible, to reduce the frequency of storm discharges and hence the bacterial loading onto the shellfish beds.

The weather on the day of the visit was dry and sunny. There had been rain the previous night and November had been a wet month.

Access to the site was down a series of steep concrete steps from the street level.

It's understood that there is a mechanical screen within the sewer and that a de-silt is done on this section of sewer every three months.

Maintenance of the screen is understood to require a crane to lift the screen out, which given the location next to the A5 requires traffic management.

There was no discharge from the outfall at the time of the visit and no evidence of any sewage derived debris or sewage fungus in the river. A photo of the outfall is attached.

From the Rivers Trust website it could be seen that the CSO had spilt 64 times during 2021 for a total of 549 hours. Is this correct and is the data accurate? Please confirm whether any action is planned in the catchment to reduce this spill rate, or not.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

### If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
