

Schematic with site generating

Drawing Date:
27/10/2022

Valves at D open

Flow A to B
Up to 30 l/s

Flow B to D
Up to 30 l/s

Flow D to E
Up to 30 l/s

Combined
Flow from
A + C
to D
Up to 30 l/s

Any flow from A
would take the
path of least
resistance
straight to D.
This would be
supplemented
with flow from C
from the
junction at B.
**All Water is
used for
generation.**

Scale 1:2500
when printed at
at A4
