Section 1 – Compliance Assessment Summary

This is based on the requirements of the permit under the Environmental Permitting Regulations or the licence under the Water Resources Act 1991 as amended by the Water Act 2003. A detailed explanation is captured in "Compliance Assessment Report Detail" (Section 2) and any actions you may need to take are given in the "Action(s)" (section 4). This summary details where we believe any non-compliance with the permit has occurred, the relevant condition and how the non-compliance has been categorised using our Compliance Classification Scheme (CCS). CCS Scores can be consolidated or suspended where appropriate, to reflect the impact of some non-compliances more accurately. For more details of our CCS scheme, contact your local office.

Permit conditions and compliance summary	CCS Category	Condition(s) breached
B4 - Infrastructure - Containment of stored materials	A	
E1 - Emissions - Air	A	
E3 - Emissions - Surface water	A	
F3 - Amenity - Dust/fibres/particulates and litter	A	
G1 - Monitoring and Records, Maintenance and Reporting - Monitoring of emissions and environment	A	
G4 - Monitoring and Records, Maintenance and Reporting - Reporting and notification to Natural Resources Wales	A	

KEY: See Section 5 for breach categories, suspended scores will be indicated as such.
A = Assessed or assessed in part (no evidence of non-compliance), **X** = Action only,
O = Ongoing non-compliance, not scored.

Number of breaches recorded	0	Total compliance score (see section 5 for scoring scheme)	0
-----------------------------	---	--	---

If the Number of breaches recorded is greater than zero, please see Section 3 for our proposed enforcement response

Report assessments:

Response to CAR NRW0032923, received 23rd March 2018

An update on the permit application for the Part B permit with the Local Authority [Action1]. The water discharge permit application was also being progressed. Monitoring uncertainty confirmed for future returns [Action 2]. Actions complete.

Response to CAR NRW0033756, received 30th August 2018

Action 1: Dust control at entrance. NRW considers that the daily visual checks have not been sufficient in preventing dust tracking out of site. The proposals to carry out more road sweeping rather than wetting is acknowledged, however, NRW still considers that prevention of dust would be preferable. Maxibrite should consider options to reduce dust being carried out on vehicle wheels.

Action 2: Site traffic and spillages of material. It is disappointing that the design of the new part of the process has retained shovel loading. Options for containing localised spillages should be considered to prevent fines from entering the site water system. The move to more covered storage for raw material is good practise.

Action 3: Water monitoring. The proposals for a suite of determinands are acknowledged. This will be kept under review.

Quarterly returns

Q1 2018 (Jan – March) Air1, Water1m Q2 2018 (April – June) Air1, Water1

Results were Compliant

Annual returns (2017)

Energy 1, Water Usage1 (updated). Compliant.

Dust deposition totals

January - March, April – June, July – September. Compliant, although the technique has not been fully verified by NRW.

Dust complaint of 3rd July 2018. A response was received from Maxibrite on 4th July 2018. The response was satisfactory; however, dust management remains under review.

Housekeeping reports

February, March, April, May, June, July, August, September. Compliant.

Section 3 – Enforcement Response

You must take immediate action to rectify any non-compliance and prevent repetition.

Non-compliance with your permit conditions constitutes an offence and can result in criminal prosecutions and/or suspension or revocation of a permit. Please read the detailed assessment in Section 2 and the steps you need to take in Section 4 below.

Section 4 – Action(s)

This section summarises the actions identified during the assessment along with the timescales for when they will need to be completed.

Criteria Ref.	CCS Category	Action required/advised	Due Date
See Section 1 above			

Section 5 – Compliance notes for the Operator

To ensure you correct actual or potential non-compliance we may

- Advise on corrective actions verbally or in writing
- Require you to take specific actions verbally or in writing
- Issue a notice
- Require you to review your procedures or management system
- Change some of the conditions of your permit
- Decide to undertake a full review of your permit

Any breach of a permit condition is an offence and we may take legal action against you

- We will normally provide advice and guidance to assist you to come back into compliance either after an offence is committed or where we consider that an offence is likely to be committed. This is without prejudice to any other enforcement response that we consider may be required.
- Enforcement action can include the issue of a formal caution, prosecution, the service of a notice and/or suspension or revocation of the permit.

See our Enforcement and Civil Sanctions guidance for further information

This report does not relieve the site operator of the responsibility to

- Ensure you comply with the conditions of the permit at all times and prevent pollution of the environment
- Ensure you comply with other legislative provisions which may apply
