## **REPORTING OF WASTE RETURNS**

### **Scrap Metal – 20 01 40**

26.82 Tonnes – Recycled – Griffiths Waste Management Limited

#### **Comments:**

Decrease in general waste in line with the decrease of production in 2022.

Decrease in cardboard in line with decrease of production in 2022.

Decrease in dry mixed recyclables in line with decrease of production in 2022.

Decrease in Effluent plant sludge due to the reduction in use of the travel oven in the Cooked Department, therefore influent FOG was lower.

Butchery Waste is meat that has fallen on the floor and is classed as Animal By-Products, therefore not required to be reported as a waste under EPR Permit Reporting.

Waste oil is collected on an ad hoc basis, following servicing of equipment. Quantity is small and not removed from site every year.

Signed on behalf of Operator by:
