Action criteria codes are listed in the 'Important information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

You are non-compliant with your permit.

We are currently considering taking enforcement action against you for the non-compliance recorded above. We will contact you in due course.

4. Details of our assessment

A site inspection was conducted on 09 November 2022 by Sally Wakeford, accompanied on site by Steve Hemmings.

Progress on site was being made, waste had started to be removed and financial issues sorted. The Notice currently in place on your site has a deadline of 16 December 2022.

This visit was conducted to gauge the progress on site of the removal of the mixed waste destined for landfill, which is not stored in compliance with your FPMP and Permit conditions. Please see photographs below.

The breaches noted below are ongoing from previous inspections, and currently under notice.

Written Management System:

C2 General Management – Management system and operating procedures – Permit Condition 1.1.1 – CAT 3 Ongoing Non-Compliance

You have been given an ongoing breach of the above condition because the written management system and use of has not prevented non-compliance with the environmental permit EPR/HP3938RN.

Permit condition 1.1.1 states: *The operator shall manage and operate the activities in accordance with a written management system that identifies and minimises risks of pollution, including those arising from operations, maintenance, accidents, incidents, non-conformances, closure and those drawn to the attention of the operator as a result of complaints.*

ACTION: Improve activities on site to ensure compliance with the written management

Waste Storage on Site:

C4 – General Management – Storage, handling, labelling and segregation – Permit Condition 3.4.1 – Ongoing CAT 3 Non-compliance.

You have been given an ongoing breach of the above condition because waste storage on site was not being carried out in line with FRCL Fire Prevention and Mitigation Plan (FPMP) and in particular the Site Plan and Block Plan. Although fire breaks have been installed these are not adequate to ensure compliance with the FPMP.

Permit condition 3.4.1 states: *the operators shall manage and operate the activities in accordance with a written site prevention plan using the current, relevant fire prevention plan guidance.*

ACTION: Remove waste destined for landfill.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
