Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation adds 2 No. 1.2 MW thermal input diesel-fuelled emergency generators to the permit. Each are considered a new Limited Operating Hours Medium Combustion Plant (MCP) and excluded Specified Generator (SG). Each generator has its own exhaust to discharge emissions to air from combustion of gas oil.

The schedules specify the changes made to the permit. The status log of a permit sets out the permitting history, including any changes to the permit reference number.
