Correspondence welcomed in Welsh and English

Schedule

1. We need more information about the proposed air scrubbers

In order to verify the claimed betterment in ammonia emissions as a result of using Inno+ Pollo M 1-stage chemical air scrubbers, we need to ensure the scrubbers have been designed appropriately.

Please provide the following information:

- How ventilation rates have been calculated
- The ventilation capacity of the scrubbers proposed
- Justification for the 90% abatement factor applied to your calculations for the proposed scenario

For further guidance on scrubber design, please see [Natural Resources Wales / Ammonia scrubber design and use](#)
