

Compliance Assessment Report CAR_NRW0040978

Licence being assessed: 20/56/12/0065.

For: Pontnewydd Golf Course, held by Pontnewydd Golf Club.

At: Pontnewydd Golf Club, Upper Cwmbran, Cwmbran, Torfaen, NP44 1AB.

Type of assessment: Site Inspection, Reason: Routine.

On 04/11/2022, between 12:30 and 13:30.

Parts of licence assessed: Abstraction point, monitoring and reporting conditions

NRW Lead Officer: Alastair Krzyzosiak.

Report sent to: Hannah Davies, Permit Holder / Club Secretary, on 23/01/2023.

1. Summary of our findings (full details in section 4)

Part of licenced activity assessed (criteria)	Assessment result	Licence condition
WR-A2 - Abstraction specified by licence - Points of abstraction	Assessed (A)	
WR-D1 - Environmental monitoring and Information - Recording	C3 Minor	8.1

Result types are explained in more detail in the 'Important Information' section below.

2. What action is required?

Criteria	Action needed	Complete by
WR-D1	Recommence daily readings, or apply for variation.	23/06/2023

Action criteria codes are listed in the 'Important Information' section below.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution or civil sanctions being imposed depending on the circumstances of the offence.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Non-compliance with condition 8.1. Readings must be supplied daily, or the permit holder must apply for a variation to take monthly readings. No further action to be taken as permit holder was previously (and incorrectly) told by NRW Environment Officer that they could supply monthly readings.

Some readings supplied were not entirely accurate, but this can be put down to a minor error in recording.

I had concerns over incomplete records from 2020. This was explained because of Covid, the course was closed and staff were unavailable/unable to read the meter. I also had questions over the meter from the farmhouse which used almost no water between August 2021 and March 2022. This was explained as the properties on the meter were unoccupied during this time. It is expected that the readings will increase once both properties are occupied again. The current meter reading for the farm is 3950 (January 2023). It was last read in December 2022 (3938). This shows an increase in use.

Following previous assessments, a pipe had been installed at the abstraction point to stop the stream drying up below the abstraction point. This pipe had been removed, although the abstraction was not causing the stream to dry up at the time of my visit. The pipe has since been reinstated at my request. Future inspections should ensure that this pipe is in place (a small copper pipe inserted through the stone abstraction point).

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

Important information

Legal status of this report

Your licence is issued to you under the Water Resources Act 1991 as amended by the Water Act 2003. You have a responsibility to comply with the conditions of your licence and prevent pollution/harm to the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property

If your assessment result in Section 1 is suspended, what does this mean?

In line with our guidance, we may suspend non-compliance for up to six months to allow time for remedial action to be taken. These will be re-instated if the action is not completed.
