Mr Griffiths,

Re: EPR Permit EPR/HP3737UE/V005 - Combined Heat and Power Implementation Review

Please find attached a letter from Calon Energy, owners of Severn Power Station which summarises the most recent feasibility review for Combined Heat and Power implementation at this site.

The technical issues discussed in Calon Energy's letter indicate that the implementation of CHP is not feasible irrespective of any potential developments in the local area, changes to Newport City Council's Local Plan or other factors listed in Clause 1.2.2 of the station's EPR Permit.

Yours sincerely,

Daniel England
Plant Manager
