Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation is to add a Hargassner Magno-SR 1200 boiler which will be an additional 1.2 MWth input to the two WK RRK 1000 Binder boilers currently on site. The biomass boiler is virgin wood-fired and used to provide heating to the Edwards Business Park. Except for periods of downtime for maintenance the boiler will operate continuously (8760 hrs/yr) and have a 9m high stack (from ground level).

These changes have been consolidated into permit.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
