You don't often get email from catherine.bransby@trinityhouse.co.uk. [Learn why this is important](#)

Good morning Nick,

Thank you for your email.

I can confirm that Trinity House have no objections to your application, provided that any risk mitigation measures proposed by the Cardiff Harbour Authority are adhered to.

Many thanks.

Kind regards,

Catherine Bransby

Subject: Channel View Footbridge, River Taff, Cardiff

Good Morning,

As part of the marine licence application process it recommends that I contact yourselves to ensure that the proposed scheme (Channel View Footbridge) will not impact navigation of the River Taff.

Arcadis has been contracted to carry out a ground investigation to obtain geotechnical and geo-environmental data to facilitate design and construction of the new Channel View Footbridge in the River Taff in Cardiff. As part of the ground investigation it is proposed that we carry out 3no. boreholes across the River Taff - this will be carried out via the use of a drilling rig on a pontoon or jack-up. The other locations are situated in 'The Marl' and 'Hamadryad Park' to the east and west of the River Taff.

We envisage the drilling operations in the River Taff to take up to 4 weeks to complete. We have not planned any night-time working but the pontoon/jack-up will stay on location in the river overnight and at weekends until the work is complete.

We do not envisage the work will have any sizeable impact on the safety of navigation on the river at that location. Prior to being and whilst on site we will keep in contact with the Harbour Master – keeping them up to date on any movements, progress and anything else they require.

I have made contact with the Harbour Master and I'll be setting up a meeting with them to ensure we do not cause any navigational or environmental issues and we do not have a negative impact on the area.

Please see document attached which includes the exploratory hole plan, a copy of the bathymetric survey and coordinates of the proposed exploratory hole locations.

If you require any additional information then please let me know.

Kind Regards

Nick Donnison BSc FGS
