Introductory note

This introductory note does not form a part of the notice.

The following notice gives notice of the variation and consolidation of an environmental permit.

This variation increases the operational hours from 500 hours per year to 750 hours per year. There are no changes to the number of engines permitted at the site. We have also completed early permitting of the Medium Combustion Plant and have postdated any MCP conditions in the permit.

The schedules specify the changes made to the permit.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.
