### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**You are non-compliant with your permit.**

**At this time, we are issuing you with a warning for the non-compliance recorded above. Warnings may influence future enforcement response for continued or further non-compliance.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

## 4. Details of our assessment

### Introduction

This compliance assessment report has been issued to Sofidel following submissions to NRW in relation to permit breaches and annual reporting requirements.

### BOD breaches

Kerry Mackinnon has recently notified NRW of breaches to permitted limits on Biological Oxygen Demand (BOD) that relate to the final discharge from on-site biological effluent treatment plant. The emission limit value states –

**Table S3.2 Point Source emissions to water (other than sewer) and land – emission limits and monitoring**

Emission point ref. & location	Parameter	Source	Limit (incl. unit)	Reference Period
W1 [SS 72540 91890]	Biological Oxygen Demand (BOD)	On-site biological effluent treatment plant	25mg/l	24-hour flow proportional composite sample

The following breaches were notified to NRW via Schedule 5 Part A form submissions as stated in permit condition 4.3.1 (b) –

- 04<sup>th</sup> October 2022 - limit 25mg/l – BOD lab result 32mg /l
- 11<sup>th</sup> October 2022 - limit 25mg/l – BOD lab result 37mg/l
- 15<sup>th</sup> November 2022 - limit 25mg/l – result 29mg/l

### Compliance:

- The above is considered a breach of condition 3.1.2. A score of C3 has been allocated.

### Annual Report

NRW reviewed Sofidel’s annual performance report required by permit condition 4.2.2.

**Compliance:** Sofidel’s annual report required under permit condition 4.2.2 was received by NRW on 30<sup>th</sup> January 2023.

**End.**

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.

## Important information

### Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

### Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

### How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

### **What are suspended scores?**

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
