Control of the facility	4
Environment Management System.....	4
Relevant convictions.....	4

We have decided to grant the transfer of Aberthaw Power Station environmental permit from RWE Generation UK plc to CCR Energy Limited.

The permit number is EPR/RP3133LD/T015.

Purpose of this document

This decision document:

- explains how the application has been determined
- provides a record of the decision-making process
- shows how all relevant factors have been taken into account
- justifies the specific conditions in the permit other than those in our generic permit template.

Unless the decision document specifies otherwise we have accepted the applicant's proposals.

Transfers

We have decided to grant the transfer of Aberthaw Power Station environmental permit from RWE Generation UK plc to CCR Energy Limited.

The permit number is EPR/RP3133LD/T015.

Control of the facility

We are satisfied that the operator is the person who will have control over the operation of part of the facility after the grant of the permit. The decision was taken in accordance with EPR RGN 1 Understanding the meaning of operator.

Environment Management System

The Applicant has stated in the Application that they will implement an Environmental Management System (EMS) that will meet the requirements for an EMS in our *“How to comply with your environmental permit guidance”*. The Applicant submitted a summary of the EMS with their application.

We are satisfied that appropriate management systems and management structures will be in place for this Installation, and that sufficient resources are available to the Operator to ensure compliance with all the Permit conditions.

Relevant convictions

The National Enforcement Database (COLINS) has been checked to ensure that all relevant convictions have been declared.

No relevant convictions were found. The operator satisfies the criteria in RGN 5 on Operator Competence.
