Dear Sir/Madam,

**TELECYLE EUROPE LTD NEW BESPOKE PERMIT APPLICATION AT UNIT 15 DROME RD, DEESIDE INDUSTRIAL PARK, SEALAND GARDEN CITY, FLINTSHIRE, CH5 2NY**

This cover letter provides a summary to the documents provided in support of an application for a New Bespoke Permit (pre-application reference: PN-00750) at a site to be operated by Telecycle Europe Ltd at Unit 15 Drome Rd, Deeside Industrial Park, Sealand Garden City, Flintshire, CH5 2NY.

The site is an industrial unit with a small footprint, the waste treatment operations are low throughput and low impact with a total annual throughput of up to 2,499 tonnes of waste, and a maximum waste treatment capacity of 10 tonne in a day.

Telecycle Europe operates under a certified ISO14001 Management System and are also members of the British Metals Recycling Association.

Shearing of catalytic converters is operated under a filtered LEV system to extract and collect any dust/fibres released.

Throughout the process, the metal casings, ceramic monolith and RCF matting are retained within the enclosed system with LEV extraction, with direct connection to sealed containers where the components are dropped without the need for any transfer between containers.

Metal casings, ceramic monolith and RCF matting are segregated and stored in appropriate containers in designated areas within the enclosed building. Only clean, uncontaminated ferrous metal may be stored outside in an enclosed, lockable 8 yard skip.

Printed Circuit Boards (PCBs) pre-segregated by the waste producer, will also be received. These will be held until an economic load available for onward transport for recovery of precious metal.

The manual dismantling of WEEE on site is a simple operation to complement the export of PCBs, operating on a limited, and *ad-hoc* basis.

The application has been prepared by WISER *Environment* Ltd acting as agents on behalf of Telecycle Europe Ltd (the operator) and payment of the application fee of £10,500 has been made.

The following information is provided within the application pack:
