5. Adequate facilities, approved in writing by the Authority, shall be provided to enable representative samples of the discharge to be conveniently obtained at any time at the pipe outlet as shown marked "Outfall" on the attached Plan No. BP0233501.
6. No sample of the discharge shall contain more than:
 - a) 10.0 pH units or less than 6.0 pH units.
 - b) 100 milligrammes per litre of suspended solids (measured after drying at 105°C).
7. As far as is reasonably practicable, the works shall be operated so as to prevent:
 - a) any matter being present in the effluent, other than matter specifically covered by numerical conditions in this consent, to such an extent as to cause the receiving waters, or any waters of which the receiving waters are a tributary, to be poisonous or injurious to fish in those waters, or to the spawning grounds, spawn or food of fish in those waters, or otherwise cause damage to the ecology of those waters; and
 - b) the treated effluent from having any other adverse environmental impact.

Subject to the provisions of Paragraphs 6 and 7 of Schedule 10 of the Water Resources Act 1991, no notice shall be served by the Authority, altering this consent without the agreement in writing of the discharger during a period of 2 years from the date this consent takes effect.

This Consent is issued and takes effect on the 31st day of July 1995

Dear Sirs

RE: WATER RESOURCES ACT 1991 SECTION 88 SCHEDULE 10
CONSENT TO DISCHARGE

Further to your application for the consent of the Authority to discharge under the provisions of Section 88 of the Water Resources Act 1991, I enclose the Authority's formal consent to discharge trade effluent and site drainage from Litalun Quarry, Ewenny, Bridgend, Mid Glamorgan.

Under the present Scheme of Charging for Discharges to Controlled Waters an annual charge will be made for all consents to discharge, except where the discharge is of sewage effluent of five cubic metres or less per day. This charge is based on information derived from the conditions attached to the consent to discharge, as outlined in the enclosed leaflet. You will receive an annual bill in due course.

Where there is a change of ownership of the discharge, the Authority should be informed in writing in order that an apportioned charge may be raised.

This discharge consent is issued under the provisions of the Water Resources Act 1991. It does not relieve the person to whom it is granted from any obligation, statutory or otherwise, to obtain any other consent, licence or permission that may also be required for the proposal.

We would advise that a Land Drainage Consent for the outfall structure and any river crossing may be required and you should therefore contact Stephen Allison of our Flood Defence Department at our Swansea Office, Tel: 01792 645300, with details of the structure you intend installing. We would also advise you to consult with your local Council on your proposals, particularly with regard to any concerns they may have over flooding.

Dear Eleanor,

**Re: Environment Act 1995, Water Resources Act 1991
Notification of Jointly Held Discharge Consents**

I write to inform you, following our recent telecon, of the oversight regarding the discharge consents at Lithalun Quarry and Vaynor Quarry, consent references BP0255101 and AF4026001 respectively.

The discharge consent at Lithalun Quarry is held jointly between, Hanson Quarry Products Europe Limited and Marshalls Mono; whilst at Vaynor Quarry, the discharge consent is held jointly with Tarmac Limited.

Unfortunately, as a result of this oversight, Hanson Quarry Products Europe have been billed for the full amount (£511.00) at both units as opposed to the correct sum of £255.50.

I enclose an extract from the Discharge Consent Schedule, received by fax from Sharon Flynn (E.A. Credit Controller) for the period 1st April 2001 to 31st March 2002. You will note that I have highlighted in yellow the above consents. Furthermore, as further evidence, I also enclose a copy of the invoices from last year's fees for the above consents.

Hanson Aggregates' Purchase Ledger Department have been instructed to pay half the amount of both these fees, as agreed with Gary Inight.

I would be grateful if you would amend your records accordingly to ensure that Hanson is billed for the correct amount.

Finally, on another matter, I look forward to receiving the revised Consent to Discharge Certificates for the Ex-Pioneer sites acquired by Hanson Quarry Products Europe Limited as per my letter to you dated 13th December 2000, which is enclosed for your information.

Yours sincerely

Dear Madam,

Re: Environment Act 1995, Water Resources Act 1991 – Company Name Change

I write to inform you that as from the 26th August 2000, the Company known as Hanson Aggregates South Wales Limited (HASWL) became vested within its parent Company, Hanson Quarry Products Europe Limited (HQPEL), whose address is as follows:

Hanson Quarry Products Europe Limited
The Ridge
Chipping Sodbury
Bristol BS37 6AY

Please accept this letter as formal notification of the transfer of Discharge Consents, Abstraction Licences and Land Drainage Consent, shown on the schedules enclosed, from HASWL to HQPEL.

Whilst writing, may I take the opportunity to notify you that as of the 11th November 2000, HQPE are no longer the owners of the Concrete Plants at Risca and Swansea, which currently have extant Discharge Consents, Nos. AN0239001 and BP0224601 respectively. Ownership of both sites is now vested with Tarmac Limited whose address is as follows:

Tarmac Limited
Mittsfield Road
Ettingshall,
Wolverhampton
West Midlands WV4 6JP

*Amended
1/2/01
EB*

Finally, would you please ensure all future correspondence is directed to myself at the address given at the top of this page and accept our apologies for the delay in notification.

Yours faithfully
