3 CONDITIONS

Notification and Inspection

3.1 Notification of Commencement

- 3.1.1** The Licence Holder must notify the Licensing Authority and authorised Marine Enforcement Officers no less than **10 days** before the commencement of the Licensed Activities, or an individual phase of the Licensed Activities, is expected to commence.
- 3.1.2** The Licence Holder must ensure that local mariners and fishermen's organisations are made fully aware of the Licensed Activities through local notices to mariners **10 days** prior to the commencement of the Licensed Activities.

3.2 Notification of Vessels and/or Vehicles

The Licence Holder must ensure that the details of the vessels and/or vehicles utilised to undertake the Licensed Activities are submitted to the Licensing Authority and Welsh Government Marine & Fisheries Division (Control & Enforcement Branch) at least **24 hours** prior to the commencement of the Licensed Activities.

3.3 Notification of agents/contractors/sub-contractors

The Licence Holder must ensure that details of any agent(s), contractor(s) or sub-contractor(s) utilised to undertake the Licensed Activities are submitted to the Licensing Authority prior to the commencement of Licensed Activities.

3.4 Notification of HM Coastguard

The Licence Holder must ensure that HM Coastguard is made aware of the Licensed Activities at least **24 hours** prior to commencement by contacting The National Maritime Operations Centre at **zone27@hmco.gov.uk**.

3.5 Inspection of Works

The Licence Holder must allow officers of the Maritime and Coastguard Agency, Marine Enforcement Officer or any other person authorised by the Licensing Authority to inspect the Works at any reasonable time.

3.6 Notification of Completion

The Licence Holder must notify the Licensing Authority and Welsh Government Marine & Fisheries Division (Control & Enforcement Branch) within **10 days** of completion of the Licensed Activities.

3.7 Accident or Emergency

- 3.7.1** If, by reason of force majeure any substances or articles are deposited otherwise than as permitted as part of the Licensed Activities or in the Licensed Area full details of the circumstances shall be notified to the Licensing Authority within **48 hours** of the incident occurring.
- 3.7.2** If it is necessary for the Licence Holder to recover or remove any equipment, plant or machinery used to undertake the Licensed Activities that have been dropped as a result of an accident or emergency, the

Licence Number: DML1947v2

Licence Holder is permitted to do so provided that the methodology for such recovery or removal has been approved by the Licensing Authority.

3.8 Distribution of Copies of this Licence

The Licence Holder is required to ensure that a copy of this licence and any subsequent revisions or amendments thereto is given to:

- All agents, contractors and subcontractors whose names have been provided to the Licensing Authority pursuant to condition 3.3; and
- The Masters of any vessels and transport managers responsible for the vehicles and/or vessels employed in the pursuance of this licence whose details have been submitted to the Licensing Authority pursuant to condition 3.2.

3.9 Inspection of Documents

Copies of this Licence shall be made available at the following locations:

- at the address of the Licence Holder specified in section 1.2;
- at any site office, located at or adjacent to the Licensed Area, used by the Licence Holder or its agent(s), contractor(s) or sub-contractor(s) responsible for the loading transportation or deposit of any substances or articles permitted as part of the Licensed Activities;
- on board each vessel or vehicle carrying out Licensed Activities.

The documents referred to in this condition shall be available at all reasonable times for inspection by officers appropriately authorised by the Licensing Authority and authorised Marine Enforcement Officers at the locations stated in this paragraph.

Vessels, Plant and Equipment

3.10 Notified contractors vessels only to carry out Licensed Activities

Only those agent(s), contractor(s), sub-contractor(s) vessels and/or vehicles whose details have been notified to the Licensing Authority may operate under the terms of this licence. Any changes must be notified to and be approved by the Licensing Authority in writing prior to any such agent, contractor, subcontractors or vehicles carrying out any Licensed Activities pursuant to or otherwise operating under this Licence.

3.11 Standard of Vessels

Any vessels employed to perform the any operations permitted by this licence shall be so constructed and equipped as to be capable of the proper performance of these operations.

Safety

3.12 Safety of Works

The Licence Holder must ensure that the Works are maintained in a safe condition that does not represent a danger to the environment, or other marine users, at all times.

3.13 Removal of Deposited Material

The Licence Holder must remove any deposited material within one month of notice being given by Licensing Authority or Marine Enforcement Officers if they consider this necessary or advisable for the safety of navigation, and shall not replace such material until the Licensing Authority or Marine Enforcement Officers have given their written approval.

3.14 Government Assistance

If, in the opinion of the Licensing Authority or Marine Enforcement Officers, the assistance of a Government Department, including the broadcast of navigational warnings, is required in connection with the Licensed Activities or to deal with any emergency arising from the drifting or wreck of the Works, the Licence Holder will be liable for any expense incurred in securing such assistance.

Pollution control

3.15 Pollution Prevention

The Licence Holder must ensure that pollution prevention best practice is adhered to at all times. Any incidents must be reported to the Licensing Authority as soon as possible using the hotline number **0300 065 3000**.

3.16 Spillage of Pollutants

The Licence Holder must employ bunding, storage facilities and spill kits to contain and prevent the release of fuel, oils and chemicals associated with the plant, refuelling and construction equipment into the marine environment. Secondary containment must be used with a capacity of **no less than 110%** of the container's storage capacity.

3.17 Prevention of Disposal of Man-made Debris

The Licence Holder must ensure that all reasonable precautions are taken to prevent the disposal of man-made debris to the marine area. Such material must be removed immediately and be disposed of appropriately. If it is not possible to prevent manmade debris from entering the marine environment during the Licensed Activities, the Works must cease immediately.

3.18 Dropped Objects

Should it be necessary for the Licence Holder to recover or remove from the Licensed Area any equipment, plant or machinery accidentally dropped when undertaking the Licensed Activities, the Licence Holder is permitted to do so provided that the methodology for such recovery or removal has been approved by the Licensing Authority.

Activity-specific Conditions

3.19 Biosecurity

- 3.19.1** The Licence Holder must implement the Biosecurity Risk Assessment dated **07 January 2020** and approved by The Licensing Authority. 3.20 Sediment Sampling

3.20.1 The Licence Holder must request a Sediment Sampling Plan (the SSP) from The Licensing Authority on or before **13 February 2022**. The SSP must include details of sampling grid, analysis suites and proposed format of a report determining the suitability of material for disposal.

3.20.2 The Licence Holder must submit the results of the SSP (the SSP results) carried out pursuant to Condition 3.20.1 above, to The Licensing Authority on or before **13 June 2022**. The SSP results must include an outline of an assessment of alternative uses for the sediment that is to be disposed for the following 3-year period.

3.20.3 The Licence Holder must not carry out any dredging activity after **13 August 2022** without prior written approval from The Licensing Authority. Such written approval should be requested no later than **13 June 2022**.

3.20.4 The Licence Holder must request a Sediment Sampling Plan (the SSP) from The Licensing Authority on or before **13 February 2025**. The SSP must outline the sampling and analysis required during the licence period and must include details of sampling grid, analysis suites and proposed format of a report determining the suitability of the material for disposal.

3.20.5 The Licence Holder must submit the written results of the SSP (the SSP results) carried out pursuant to condition 3.20.4 above to The Licensing Authority on or before **13 June 2025**. The SSP results must include an outline of alternative uses for the sediment that is to be disposed for the following 3-year period.

3.20.6 The Licence Holder must not carry out any dredging activity after **13 August 2025** without prior written approval from The Licensing Authority. Such written approval should be requested no later than **13 June 2025**.

3.20.7 The Licence Holder must request a Sediment Sampling Plan (the SSP) from The Licensing Authority on or before **13 February 2028**. The SSP must outline the sampling and analysis required during the licence period and must include details of sampling grid, analysis suites and proposed format of a report determining the suitability of the material for disposal.

3.20.8 The Licence Holder must submit the written results of the SSP (the SSP results) carried out pursuant to condition 3.20.7 above to The Licensing Authority on or before **13 June 2028**. The SSP results must include an outline of alternative uses for the sediment that is to be disposed for the following 3-year period.

3.20.9 The Licence Holder must not carry out any dredging activity after **13 August 2028** without prior written approval from The Licensing

Authority. Such written approval should be requested no later than **13 June 2028**.

3.21 Monitoring and Analysis

- 3.21.1** The Licence Holder must implement a program of monitoring and analysis between **01 January 2025** and **30 June 2025** of the dispersive manner of Swansea Bay disposal site (LU130) to the Kenfig SAC in line with the 2020 bathymetric monitoring survey as detailed within 'ABPmer Technote', dated **20 February 2020**. Any proposed changes to the actions outlined in the documents must be submitted to, and agreed in writing by, The Licensing Authority prior to any changes being enacted.
- 3.21.2** The Licence Holder must submit the monitoring report to The Licensing Authority for written approval within **9 months** of completion of the survey detailed in condition 3.21.1.
- 3.21.3** If the survey detailed in condition 3.21.1 identifies sediment accretion along the transect the Licence Holder must provide recommendations within the monitoring report detailed in condition 3.21.2 to prevent adverse effect to Kenfig SAC.
- 3.21.4** The Licence Holder must ensure that any proposed mitigation to prevent adverse effect to Kenfig SAC outlined in the monitoring report detailed in condition 3.21.2 are implemented as approved in writing by The Licensing Authority. Any proposed changes to the actions outlined in the documents must be submitted to, and agreed in writing by The Licensing Authority prior to any changes being enacted.
- 3.21.5** The Licence Holder must not carry out any dredging activity after **30 June 2026** without prior written approval from NRW. Such written approval should be requested no later than **9 months** of completion of the survey detailed in condition 3.21.1.

3.22 Reporting of Artefacts

The Licence Holder must ensure that any artefacts found during the works are reported through the Marine Portable Antiquities Scheme.

3.23 Evenly Deposit Material

The Licence Holder must ensure that during the course of disposal, material is distributed evenly over Swansea Bay (Outer) LU130 disposal ground.

3.24 Disposal Returns

- 3.24.1** Certified returns of quantities of substances or articles deposited under this Licence are required to be submitted on the attached disposal return form by **31 January** and **31 July** each year. The returns must specify the full Licence number and amount deposited each calendar month at each authorised Deposit Area. Where no deposit is made in a given period a NIL return is required.
- 3.24.2** If this Licence expires during the course of the calendar year and is not renewed or superseded by a further Licence relating to the works specified in paragraph 2.1, a certified return of quantities of substances or articles deposited under this Licence, shall be

submitted not later than **28 working days** after the expiry date of this Licence.

3.25 Annual Compliance Report

The Licence Holder must produce a report on compliance with the conditions to which this Marine Licence is subject, including a summary of the monitoring undertaken. The Licence Holder must submit copies of the report to the Licensing Authority, within **3 months** of the end of each 12-month period from the start of the licence.

3.26 Written Record of Disposal Activities

3.26.1 Any person in charge of the loading of a vessel or any intermediate storage of the substances or articles prior to their deposit in the sea shall maintain a written record on the premises relating to individual cargoes or loads (received or dispatched). This written record and shall include the following details:

- i. date and time each load was received or dispatched and the quantity;
