Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

Introduction

This report details the site visit made on the 22 March 2023 to Summerlease Pet Crematorium, Green Street Farm, Green Street Lane, Redwick, Magor, NP26 3DY, Permit number EPR- CP3595SX. NRW Officer Carla CURTIS attended site at 12:30 to conduct a routine inspection, the last inspection was completed 23rd May 2018 (CAR_NRW0033405) and a Consignment note audit was carried out 6 December 2021. Mr. Paul SCOTT (Operations Manager & TCM) accompanied officer around the site. Weather conditions were cold and overcast at the time of inspection. The site was accommodating and cooperative during the site inspection

To remind the company following each visit Natural Resources Wales will produce a Compliance Assessment Report (CAR) detailing our comments from the inspection. If we substantiate reasonably foreseeable risks or actual impact to the environment, we can breach the business against your permit conditions which can affect your site banding annual subsistence fees; this is scored on a Category 1 - 4 basis:

- 1 - Major, serious persistent and/or extensive impact on the environment/people/property
- 2 - Significant impact or effect on the environment/people/property
- 3 - Minor impact or effect on the environment/people/property
- 4 - A non-compliance which has no potential environmental effect

Observations

Thank you for taking the time to show me around the site and describing your operations. On site incinerators were operational at the time of the visit and general operations were in good order. Waste skips and yellow bins were clearly separated and labelled as well as the impermeable surface of the yard showing no issues with drainage. No waste(s) of any type were stored outside of the permit boundary and there were no offensive waste odours or excessive noises noted by NRW Officer CURTIS during the site inspection

Technical competency

The allocated Technically Competent Manager (TCM) for the site is Paul SCOTT, certificate was observed in the office and expires 11 October 2023.

Environmental Management System

A copy of this was observed in the office.

Waste Returns submissions

These appear to be up to date and correct, the latest waste return for Q4 2022 was submitted on 25/01/23. Waste codes accepted: 180203 & 180207, 180208 & 180205 totalling 68.10 tonnes. 68.10 tonnes were removed from the site as waste, coded as 180205, 180104, 180203, 200199, 180207 & 090107 and sent Swindon, Halton & Caerphilly. Please continue to submit quarterly waste returns within one month of the end of each quarter, in line with your permit.

Permit compliance and breaches

No permit non-compliances were identified on this visit and thus no breaches have been scored.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
