

Schedule 5 - Notification

These pages outline the information that the operator must provide.

Units of measurement used in information supplied under Part A and B requirements shall be appropriate to the circumstances of the emission. Where appropriate, a comparison should be made of actual emissions and authorised emission limits.

If any information is considered commercially confidential, it should be separated from non-confidential information, supplied on a separate sheet and accompanied by an application for commercial confidentiality under the provisions of the EP Regulations.

Part A

Permit Number	BR7321IK
Name of operator	Tata Steel UK Limited
Location of Facility	Tata Steel Colors
Time and date of the detection	03/08/2022

(a) Notification requirements for any activity that gives rise to an incident or accident which significantly affects or may significantly affect the environment	
To be notified Immediately	
Date and time of the event	18:00 03/08/2022
Reference or description of the location of the event	Skips deliberately set on fire (arson)
Description of where any release into the environment took place	Smoke was released into the atmosphere within an open ended bay, residue fire water was contained within the skips and on concrete hard standing. No surface drains were within the vicinity.
Substances(s) potentially released	Products of combustion
Best estimate of the quantity or rate of release of substances	There was an initial plume of smoke, then steam from fire water released. A small amount of residue fire water was escaped the skips onto the hard standing concrete ground.
Measures taken, or intended to be taken, to stop any emission	The fire was tackled with Emergency Response Vehicle by the on-site fire service.
Description of the failure or accident.	3 trespassers were reported to security by on site personnel. Subsequent patrols observed fire in the location above. Immediate action was undertaken to extinguish the fires appropriately. Trespasser were followed but could not be apprehended prior to them leaving Site. Entry/exit point believed to be via climbing over permitted fences and crossing main railway line to the East of the Site. North Wales police informed of the incident.

(b) Notification requirements for the breach of a permit condition	
To be notified immediately	
Emission point reference/ source	N/A
Parameter(s)	N/A
Limit	N/A
Measured value and uncertainty	N/A
Date and time of monitoring	N/A
Measures taken, or intended to be	N/A

taken, to stop the emission	
-----------------------------	--

Time periods for notification following detection of a breach of a limit	
Parameter	Notification period

(c) In the event of a breach of permit condition which poses an immediate danger to human health or threatens to cause an immediate significant adverse effect on the environment:	
To be notified immediately	
Description of where the effect on the environment was detected	N/A
Substances(s) detected	N/A
Concentrations of substances detected	N/A
Date of monitoring/sampling	N/A

Part B - to be submitted as soon as practicable

Any more accurate information on the matters for notification under Part A.	On site enquiry held – no further information available.
Measures taken, or intended to be taken, to prevent a recurrence of the incident	Increased security patrols across site and in particular suspected area of entry/exit.
Measures taken, or intended to be taken, to rectify, limit or prevent any pollution of the environment which has been or may be caused by the emission	N/A
The dates of any unauthorised emissions from the facility in the preceding 24 months.	N/A

Name*	Nick Price
Post	Senior Energy & Environment Officer
Signature	<i>NJPrice</i>
Date	11/08/22

* authorised to sign on behalf of the operator
