Total number of non-compliances recorded	Total non-compliance score
0	0

How we use the non-compliance score to calculate your annual fee is explained in the 'Important Information' section below.

2. What action is required?

No action required.

3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

At this time, we do not intend to take any further action.

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

4. Details of our assessment

This report details the site visit made on the 3rd May 2023 to Associated British Ports, Newport, permit reference number EPR-AB3699FY.

NRW Officers Greg GARDNER and Carla CURTIS attended the Associated British Ports (ABP) site at Alexandra Docks, East Way Road, Newport, NP20 2NP for a routine site inspection at 10:00am. The weather was dry, and reasonably mild which it had also been the previous day.

PERMIT BREACHES / ACTIONS

No permit breaches / actions have been identified during this site inspection.

GENERAL OBSERVATIONS

The site was not in operation at the time of site inspection.

SITE INFRASTRUCTURE

The flooring on site was in good condition with no apparent damage visible. General housekeeping on site was maintained to a good standard and no causes for concern were identified. There was no excessive noise along with no airborne dust present during the site inspection. There was also no offensive odours witnessed by NRW Officers. The wood material on the ABP site had been processed by SWWP Ltd, which was pending export from Newport Docks (see photos 1-3).

Although good practices were witnessed by NRW Officers with regards to fire prevention and mitigation such as sufficient fire breaks and low stockpile heights (see photos 1 and 2), it is worth reminding the operator to maintain continued compliance with your sites FPMP document to prevent highly combustible material such as this from igniting.

WASTE RETURN SUBMISSIONS

ABP Ports have submitted their quarterly waste returns for Quarter 1, 2023 on time and in full. They declared 0 tonnes of waste was received and 0 tonnes of waste was removed which is within their permitted allowance.

NRW Officers Greg GARDNER and Carla CURTIS left site at 10.15am the same day.

Important information

Legal status of this report

Your permit is issued to you under the Environmental Permitting Regulations. You have a responsibility to comply with the conditions of your permit and prevent pollution/harm of the environment. You must also ensure that you comply with any other relevant legislation that may apply to your site's operations.

This report explains the findings of our assessment and any action you are required to take. We categorise non-compliance using our guidance for assessing non-compliance at regulated sites.

When we find potential non-compliance/s we will normally give you advice on how to maintain compliance.

To correct non-compliance, we may:

- require you to take specific actions
- issue a notice
- review the conditions of your permit.

Any advice and guidance we give will be without prejudice to any other enforcement response that we consider may be required.

Assessment results and non-compliance categories (used in section 1):

Assessment result	Description
Assessed (A)	Assessed or assessed in part, no evidence of non-compliance found
Action only (X)	Action only relating to the activity assessment
Ongoing (O)	Ongoing non-compliance, not scored

Non-compliance category	Description	Score
C1 Major	Potential to have a major, serious, persistent and/or extensive impact or effect on the environment, people and/or property	60
C2 Significant	Potential to have a significant impact or effect on the environment, people and/or property	31
C3 Minor	Potential to have a minor or minimal impact or effect on the environment, people and/or property	4
C4 No environmental impact	Non-compliance at a regulated site that cannot foreseeably have any impact on the environment, people and/or property	0.1

How we use assessment scores

The number and severity of non-compliances recorded in a year will affect your annual subsistence fee the following year. A non-compliance factor is added to your site's Operator

Performance Risk Appraisal (OPRA) score when we calculate your fee to reflect the additional resource we use to assess permit compliance.

What are suspended scores?

In line with our guidance, we may suspend scores for up to six months to allow time for remedial action to be taken. Suspended scores will be re-instated if the action is not completed.
