### 2. What action is required?

No action required.

### 3. What will happen next?

Any non-compliance we have identified and recorded on this form is an offence. It can result in criminal prosecution and/or suspension or revocation of your permit.

**At this time, we do not intend to take any further action.**

This statement does not stop us from taking additional enforcement action if further relevant information comes to light or offences continue.

### 4. Details of our assessment

The Phosphorus monitoring data for the site was reviewed following the submission of an e-mail from Victoria Collier regarding a sample on the 9th of May 2023. The e-mail explained that a sample at 08.00 on the 9th had a P result of 0.81mg/l and that this would have been short lived and that there was ongoing work on a compressor / blue pro filter. The permit limit is 0.5mg/l, but this is an annual mean.

The sample information provided was reviewed by Karen Davies of Natural Resources Wales and the site was deemed to currently be compliant with it's rolling annual mean.

If you have any queries about this report, or to discuss completion of any actions, please contact the NRW Officer named above.
