

Application to vary a marine licence

Variation request details

Marine licence number
RML2011

Expiry date of current licence
* 31/10/2028

Licence holder name
National Grid Electricity Transmission plc

Variation type
Routine change

Brief description of licence variation that is required. (Identify licence condition numbers and reference the supporting documents within your current licence which are likely to be affected)
National Grid is seeking to extend the marine licence period by one year due to the project starting a year later than initially envisaged, and subsequent changes to the programme. The current licence ends on 31/10/2028. The revised date extension requested in this application is an end date of 31/10/2029. On-site terrestrial works for the VIP Snowdonia project have commenced in 2023, with the entire project expected to take approximately 5-6 years to complete. Overhead line removal work (including the Proposed Marine Works) is currently expected to take place in 2029. As outlined in the original application, the Proposed overhead line Marine Works will take place between 01 April and 31 October, with the foundation removal completed and the physical barriers within the estuary removed as far as possible by the end of this period. If the contractor is able to complete the works earlier overhead line removal works may take place in 2027 or 2028 but would still take place between 01 April and 31 October. To confirm there are no changes to the proposed methods – just the request to extend the end date for the works from 2028 to 2029.

When are you looking to start work requiring the variation?
