4. Details of our assessment

Attended this site on the 05/06/23 at 10:30.
 Weather - Sunny and dry.

Was met by Mr Carter, and was shown the dipping bath set-up which was constructed of concrete with a plastic liner and was in good working order, with drainage pen of suitable size and with all floors draining back to the bath.

Next we inspected the records and were in good order and up to date showing what is required as per permit.

Storage of chemical was in a bunded, lockable store and in good condition, which was situated near the dipping baths.

Discussion regarding new regulation took place and Mr Carters concerns were addressed.
