The Environmental Permitting (England & Wales) Regulations 2010

Dwr Cymru Cyfyngedig

Sites

Various sites as described in Schedule 2 of this notice

Variation notice number

V001

Permit numbers

Various as listed in Schedule 2 of this notice.

Site name as described in Schedule 2 of this notice

Permit number as listed in Schedule 2 of this notice

Introductory note

This introductory note does not form a part of the permits being varied

The following notice, which is issued pursuant to regulation 20 and Part 1 of Schedule 5 of the Environmental Permitting (England and Wales) Regulations 2010 S.I.2010 No. 675 (the Regulations), gives notice of the variation of environmental permits to operate regulated facilities.

The permits were granted (in the form of discharge consents) by Notice dated 14 April 2009 ('the April 2009 Notice'). Schedule 1 to the April 2009 Notice set out the conditions to which the consents were subject, and Schedule 2 listed the sites it related to.

The operator appealed certain of the conditions (Planning Inspectorate appeal reference APP/P/515323) specified in Schedule 1 to the April 2009 Notice. In result of the appeal, by Decision dated 30 March the Planning Inspector directed the Environment Agency to delete the conditions in Schedule 1 of the April 2009 Notice, and replace them with revised conditions. This variation notice implements that Decision.

Schedule 1 of this notice lists the deleted conditions, and Schedule 3 lists the conditions that the Inspector has directed to be added.

Schedule 2 to the April 2009 Notice contained some inaccuracies and so this is being rectified by Schedule 2 of this notice, which replaces the previous Schedule 2 with a revised version following dialogue with the Operator.

The status log of a permit sets out the permitting history, including any changes to the permit reference number.

Status Log of the permit

Consent determined	14/04/09	Issued in the form of a Schedule
Variation determined	08/09/10	Issued in the form of a Schedule

End of introductory note

Notice of variation

The Environmental Permitting
(England and Wales) Regulations 2010

Permit number

Listed in Schedule 2 to this notice

The Environment Agency in exercise of its powers under Regulation 20 of the Environmental Permitting (England and Wales) Regulations 2010 (SI 2010 No 675) varies the permits as set out below.

Dwr Cymru Cyfyngedig ("the operator"),

whose registered office is

Pentwyn Road

Nelson

Treharris

Mid Glamorgan

CF46 6LY

company registration number **02366777**

hold permits to operate regulated facilities at locations described in Schedule 2 to this notice and these permits are varied to the extent set out in Schedules 1 to 4 of this notice.

The notice shall take effect from 08/09/10

Name	Date
Mark Hutchinson	08/09/10

Authorised on behalf of the Environment Agency

Schedule 1 – conditions to be deleted

1.1; 2.1; 3.1; 3.2; 3.3; 4.1; 4.2; 4.3; 4.4 and 4.5.

Schedule 2 – Terms of the April 2009 Notice to be amended

The attached Schedule 2 replaces Schedule 2 attached to the Notice issued on 14 April 2009.

Schedule 3 – Conditions to be added

1. Discharge from Combined Sewer Overflow or Storm Tank

- 1.1 A discharge from a Combined Sewer Overflow ("CSO") or storm tank shall consist of storm sewage effluent resulting from rainfall or snowmelt into the sewerage system.

2. Restrictions on Discharges from Combined Sewer Overflow or Storm Tank

- 2.1 The discharge or discharges from a CSO or storm tank shall not so far as reasonably practicable cause significant visual or aesthetic impact due to deposit of solids on the bed or banks of the receiving watercourse, estuary or a beach, or growth of sewage fungus on the bed of the receiving watercourse.

3. Maintenance of Combined Sewer Overflow or Storm Tank

- 3.1 The overflow, and any screening system, of a CSO or storm tank shall be maintained in an effective and efficient operational condition.
- 3.2 Where an alarm or telemetry system is installed to provide warning of screen failure or abnormal operation of the CSO or storm tank, it shall be maintained in working order.
- 3.3 Where the discharge from a CSO or storm tank results in unsatisfactory solid matter being visible in the receiving waters or on the banks of the receiving waters, beach, or shoreline, in the vicinity of the outfall, the Permit Holder shall take all reasonable steps to collect and remove such matter as soon as reasonably practicable after the discharge has been reported.

4. Discharges from Emergency Overflows

4.1 Nature

- (a) The discharge from a Pumping Station Emergency Overflow ('PSEO') shall not occur other than in an emergency and when the sewage pumping station is inoperative as a result of one or more of the following:
- (i) electrical power failure or electronic control failure not due to the act or default of the Permit Holder, its agents, representatives, officers, employees or servants;
 - (ii) mechanical breakdown of duty and standby pumps;
 - (iii) rising main failure;
 - (iv) blockage of the downstream sewer not due to the act or default of the Permit Holder, its agents, representatives, officers, employees or servants;
- and it is not reasonably practicable to dispose of the sewage otherwise.
- (b) There shall be no undue delay on the part of the Permit Holder in remedying any such failure or breakdown as set out in 4.1(a) above, and any storage provided for use in an emergency shall be fully utilised before a discharge occurs.

4.2 Telemetry

If not already fitted, a 24 hour response telemetry alarm system shall be fitted within 5 years of the date of this Permit; and, once fitted (either already or in the future) the system shall be maintained to give notification of failure or breakdown of the pumping station.

4.3 Standby

Where a standby pump or a standby generator is provided it shall be maintained in working order.

4.4 Pumping Station Failure Rectification

Where a pumping station emergency overflow takes place, the Permit Holder shall notify the Environment Agency as soon as reasonably practicable, and any failure of the pumping station shall be rectified as soon as reasonably practicable.

4.5 Clean up

Where the discharge from a PSEO results in unsatisfactory solid matter being visible in the receiving waters or on the banks of the receiving waters, beach, or shoreline, in the vicinity of the outfall, the Permit Holder shall take all reasonable steps to collect and remove such matter as soon as reasonably practicable after the discharge has been reported.

Schedule 4 – Amended plan

None.
